

To our loyal clients, and prospective ones:

*We welcome you to the latest **DISPLAY COMPONENTS** product catalogue.*

Here at DISPLAY COMPONENTS, we take the challenge seriously of making your life easier by providing innovative products to meet the needs of **plastic fabricators** and **display professionals**. This catalogue brings together an exciting range of products from global and local suppliers ranging from the small components that are an essential part of the plastic fabrication process to the components to assemble large free-standing displays.

Here is a brief overview of some of the new products that we present for the first time:

- **Plastic ticket frame systems** – an amazing range of accessories for the display builder and visual merchandiser, allowing for an almost unlimited combination of signage solutions.
- **Metal tubing connectors** – a stunning collection of components to manufacture stands and display structures from small to large in round or square tube. You will never have to custom-manufacture a welded frame again – simply utilize our range of standard tubing bends and connectors and you will have a solution that can be easily assembled and dis-assembled using basic tools.
- You will also find new products scattered through the existing catalogue sections.

Our team has also been busy refining our supply chain systems and is pleased to be able to pass on some **great savings** on many of our items. We have done this without sacrificing the quality of our products that you have come to trust.

In addition to refining our incoming supply chain, we are also pleased to announce the opening of our own **distribution centre** in metro **Sydney**. This is an exciting move that will benefit our clients on the Eastern seaboard by providing ready access to our products without the “tyranny of distance”. We can tailor a supply solution to meet your needs to ensure that we have the products that you require available when you need them.

Our team will be at your disposal and look forward to discussing your feedback and requirements.

So, until we speak, **all the best...**

ACRYL HINGE 2

High quality, transparent, solvent cementable hinge made from ultra-tough DR acrylic with self lubricating nylon pin to prevent squeaking. Designed for use on materials up to 6mm thick.

Size: 45mm long x 38mm wide
#7000 Clear, Black or White

ACRYL-HINGE 2 SPRING LOADED

Same quality hinge features a built-in spring that returns lids and doors to closed position.

Size: 45mm long x 38mm wide
#7005 Clear Only

SMALL HINGE

High quality, transparent, solvent cementable hinge. Suitable for applications requiring a more petite appearance.

Size: 38mm long x 35mm wide
#7002 Clear Only

PIANO HINGE

Moulded DR acrylic clear solvent cementable piano-style hinge. May be cut to length or joined end to end. Now available in 2 convenient lengths. Incorporates channels to retain solvent flow.

#7007 152mm long x 41mm wide
#7010 305mm long x 41mm wide

SPRING LOADED PIANO HINGE

Built-in spring that returns lids and doors to closed position.

#7006 152mm long x 41mm wide
#7004 305mm long x 41mm wide

We have a large range of "living" hinges which feature a flexible centre membrane with co-extruded rigid side pieces. The only flexible hinge that is recommended for outdoor use or in the presence of heavy U.V is the FLEX-FOLD. You can cut any of the flexible hinges to the exact length of you project.

FLEX-FOLD

Transparent, all weather continuous hinge with rugged durability. Recommended for bulk food bins, golf cart windscreens, outdoor dispensers, freezer compartments and marine applications. Co-extruded from DR acrylic with tough elastomer centre section for years of continuous use. Features sleek, tapered sides and smooth surfaces that are easy to keep clean. Now available in two lengths for economical cutting.

(The flexible centre section may be strip heated and bent to form a self-closing hinge).

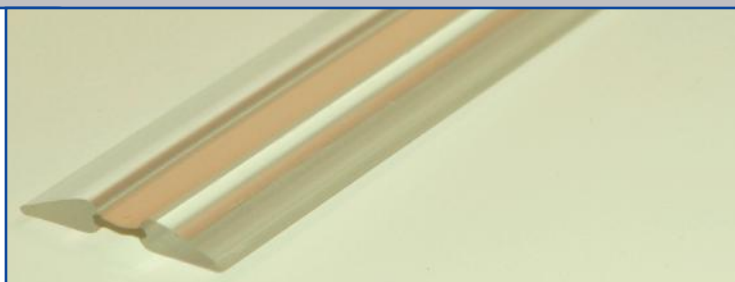

#70011/4 1220mm long x 35mm wide x 5mm high
#70011/6 1830mm long x 35mm wide x 5mm high

FLEX-LITE

An economy version of FLEX-FOLD for interior use. Flex-Lite is manufactured from clear acrylic sides with a white flexible center.

AP7012 1220mm long x 35mm wide x 5mm high

SUPER 'H' HINGE

No cementing necessary with this design. A groove in your material fits over the rib in the hinge to hold without glue. Clear PVC with white centre flexible strip. 1830mm lengths.

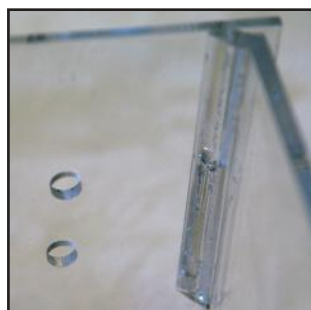

#7045 Fits over 4.5mm thick material
#7046 Fits over 6mm thick material

CLIP-ON SLATWALL CLIP

High quality injection-moulded polycarbonate attachment for clipping into pre-drilled holes into a back panel of any material from 4 – 6mm thick. Provides a secure, positive grip. Allows for items to be sent without slatwall hooks to save damage in transit.

Drill 2 x 6.5mm dia. Holes – 3 - 4.5mm thick material – down 40/60mm from top edge.
- 6mm thick material – down 35/55mm from top edge.

#7020

ACRYLIC KNOB

Ergonomically designed to fit perfectly between thumb and forefinger.

#7021 25mm dia x 19mm high

ACRYLIC PULLS

Attractive, moulded transparent handles that improve the look and feel of fabricated items.

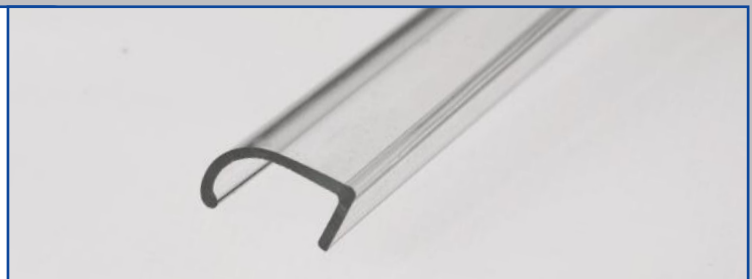

#7022 51mm long x 9mm wide
#7023 70mm long x 11mm wide
#7024 89mm long x 13mm wide

HANDLE BAR

Extruded, transparent acrylic section can be cut to you exact length and solvent bonded to doors, drawers etc.

#7027 610mm long

1 PEGBOARD ATTACHMENT

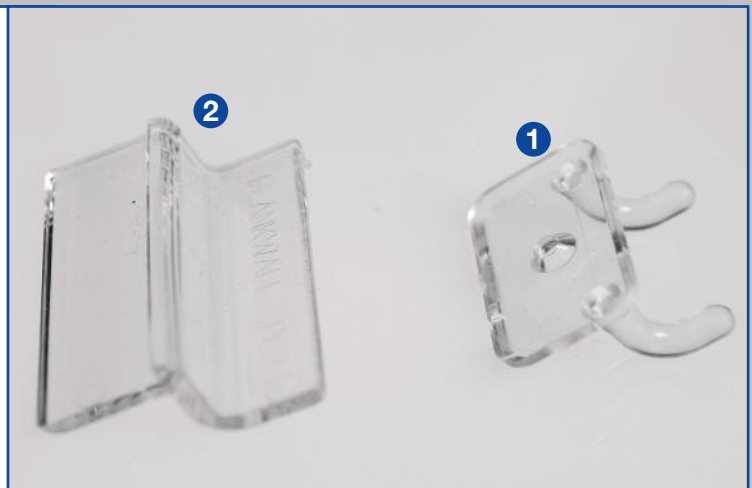

Solvent bonds to adapt acrylic products for pegboard or grooved wall hanging.

#7025 28mm wide x 25mm high

2 GROOVED WALL ATTACHMENT

Bonds to back of displays to convert to grooved wall mounting.

#7026 50mm long

KEYHOLE ATTACHMENTS

Solvent bonds to adapt acrylic products for pegboard or grooved wall hanging.

1 #7040 22mm wide x 25mm high x 6mm thick
2 #7041 32mm wide x 32mm high x 6mm thick

OPEN DESIGN KEYHOLE ATTACHMENT

Incorporates centre alignment mark and open 'V' bottom for easy hanging.

#7043 19mm wide x 22mm high x 5mm thick

SAWTOOTH HANGER ATTACHMENT

#7042 51mm wide x 19mm high x 5mm thick

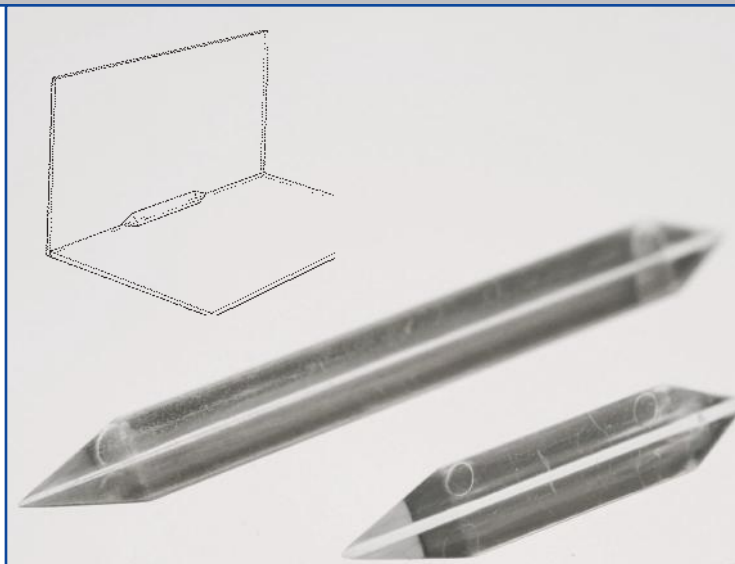

CORNER RE-INFORCING BLOCKS

The slim design of this clear high-impact acrylic block almost invisibly increases joint and construction strength. Tapered ends help prevent dirt and particle build up in corners & make for easy cleaning. Tapered on both ends or one end only for butting into corners.

#7047 6mm wide x 6mm high x 80mm long
- tapered both ends

#7048 6mm wide x 6mm high x 45mm long
- tapered both ends

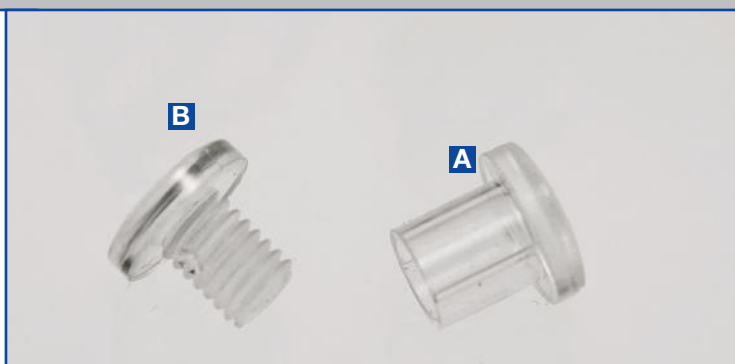

#7049 6mm wide x 6mm high x 45mm long
(not pictured) - tapered one end, flat other end.

CLEAR BUTYRATE POST & SCREW

Join two pieces of material together with this screw together fastener. Re-useable. Require 6.25mm dia hole. Head dia - 10mm

a) #0667P	Post	Length: 6mm
b) #0667S	Screw	Length: 6mm
#0668P	Post	Length: 12mm
#0668S	Screw	Length: 10mm

ALUMINIUM POST & SCREW

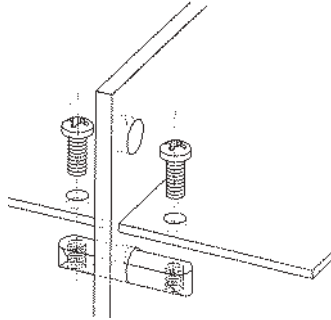

Threaded all- aluminum fastener. All require 6.25mm dia. hole. Includes post and screw per set.

#0660	Length: 4.5mm
#0661	Length: 6mm
#0662	Length: 10mm
#0663	Length: 12mm

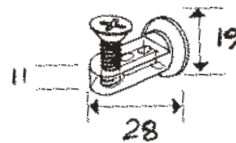

SHELF CLIP/SHELF SUPPORT

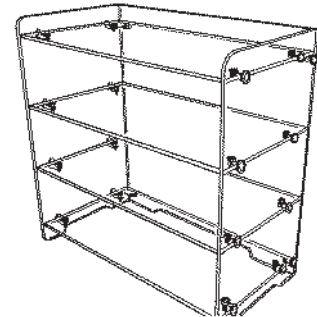

Tough polycarbonate clip helps you create units that knock down for shipping and easy assembly. Clips come with 1/4" W counter sunk stainless steel screw, 20mm long. Requires 12.7mm dia hole in end panels. Use single clip for end panels, double clip for centre dividers.

- 1 #0695 Single for ends
- 2 #0696 Double for dividers

Examples of a knock-down style display using screw clips to assemble.

TRAY DIVIDERS

Make adjustable sized pockets in J-racks and other displays. Clip over 3mm material.

#7135 32mm high x 45mm deep

GLUE-ON BUSINESS CARD HOLDER

Easily adds on to a range of fabricated products. Has sloping base to prevent cards from leaning forward.

- 1 #7130 100mm wide x 25mm high x 22mm deep
- 2 #7133 57mm wide x 90mm high x 25mm deep

GLUE-ON BROCHURE POCKET

These convenient pockets can be solvent bonded to acrylic displays

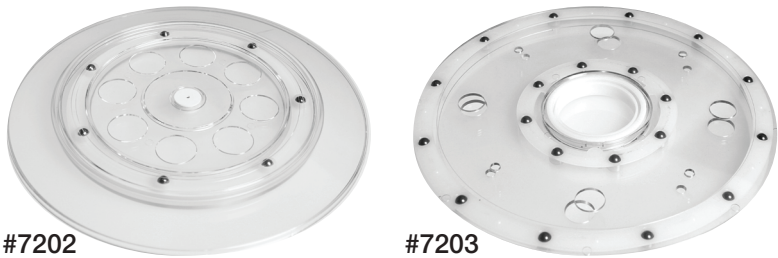

- 1 #7131 105mm wide x 100mm high x 25mm deep (DL)
- 2 #7134 220mm wide x 250mm high x 45mm deep (A4)

TURNTABLES

These clear styrene turntables are quiet and free-running with internal metal ball bearings. Manufactured from PETG for superior strength.

- #7210 108mm Dia. with 20mm centre hole
- #7200 140mm Dia.
- #7201 215mm Dia.
- #7202 305mm Dia. with 215mm top turning plate
- #7203 305mm Dia. Heavy duty bearing unit

HEAVY-DUTY LAZY SUSAN

Manufactured from black, durable ABS plastic and with a series of ball bearing supports, these turntables provide a solution for heavy-duty use. Includes cushion feet (these may be removed for attaching directly to displays).

- AP7205 320mm diameter
- AP7206 405mm diameter

CLEAR BUMPERS

Transparent, self sticking polyurethane bumpers to protect bottom surface of displays from scratching or sliding. Priced per bumper.

	Shape	Size (dia x ht)	No. per box	No. per pad
#7060	Hemispherical	7.9 x 2.2	5400	450
#7061	Hemispherical	11.1 x 5.5	5082	242
#7062	Cylindrical	12.7 x 3.5	5000	200

SUCTION CUPS

Hold a variety of lightweight signs etc onto glass or shiny metal surfaces. Choose from plain or with metal hook.

Plain		With metal hook	
#0600	45mm dia	#601	45mm dia
#0603	20mm dia	#604	20mm dia
#0605	65mm dia		

DOOR CATCH

Clear, Moulded, two-part polycarbonate catch has spring action for secure closing.

#7032 Overall length: 33mm (when closed)

MAGNETIC CATCHES

At last, a fabricator-friendly magnetic catch that will solvent bond onto acrylic. Available in 2 sizes – for lightweight applications. Holds doors securely, yet opens with a slight pull.

#7033 Base Length x Width x Height
Small - 22mm x 10mm x 12mm
#7034 Large - 45mm x 10mm x 20mm

HASP

Decorative, moulded, transparent pin-style hasp with removable pin for flat or corner mounting.

#7030 Overall length: 65mm (in flat position)
x 22mm wide

MINI HASP

2 x angle pieces per set. Hole size 10mm dia.

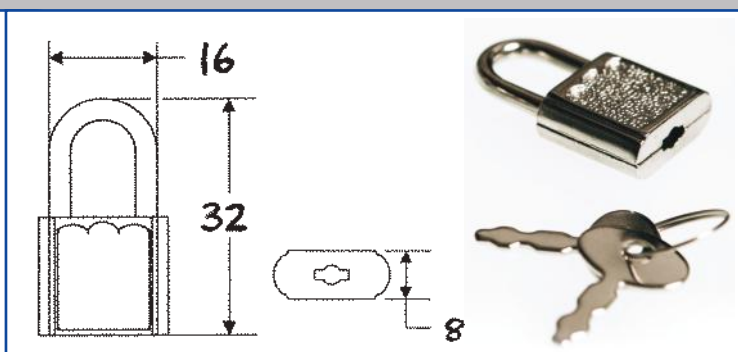

#7044 13mm x 13mm

PADLOCKS

Nickel plated mini-padlock.

#7029

MINI-CAMLOCK

Perfect for low security requirements of small acrylic cabinets etc.

#7028 Hole size - 12mm dia, Housing length 16mm
Cam length (from hole centre) 16mm

STANDARD CAMLOCK

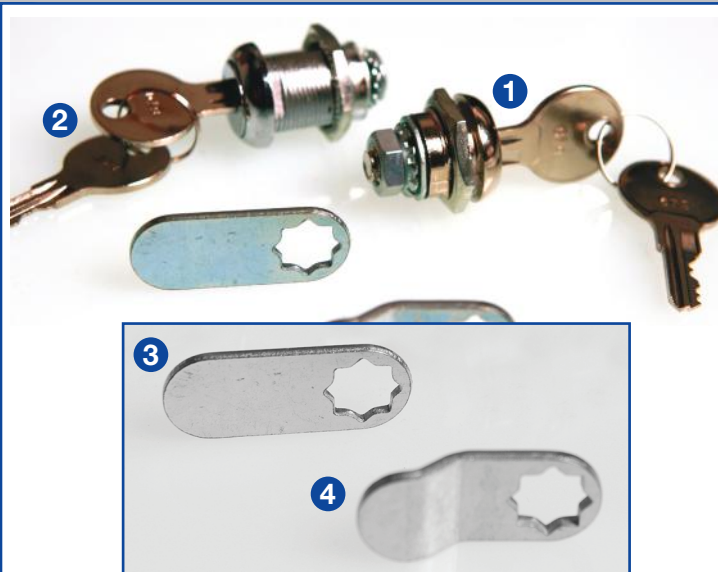

A simple way to add a bit more security to larger cabinets with hinged doors. Order the required cam lever separately. All standard camlocks are keyed alike.

Lock Body (inc. 2 keys)

- ① **#7150** Hole size - 19mm dia, Housing length 11mm
- ② **#7151** Hole size - 19mm dia, Housing length 16mm
- #7152** Hole size - 19mm dia, Housing length 22mm

Cam Lever

- #7160** Straight - Length (from hole centre) - 25mm
- ③ **#7161** Straight - Length (from hole centre) - 32mm
- ④ **#7162** 6mm Offset - Length (from hole centre) - 32mm

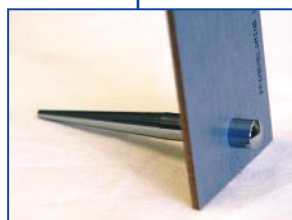

DESK SIGN SUPPORT

Beautifully profiled and finished fitting simply attaches through 4mm dia. hole in acrylic for desk signs.

Max. panel thickness – 16mm
Length (behind panel) – 70mm
(Dome fastening piece protrudes 9mm in front of panel).
Diameter at front – 9mm.

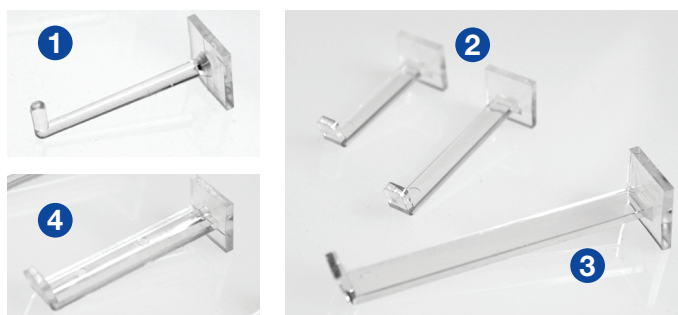

#1973

HOOKS

Here's a selection of hooks that you can glue directly onto acrylic surfaces or use with a hook holder. The hook holder makes it easy to slide in and out, reducing damage in shipping and making hook replacement more economical. All hooks made from clear PETG.

	1	2	3	4
Length	3mm round	6mm flat	10mm flat	10 mm ribbed
25mm	#7101(a)	-	-	#7111(c)
38mm	#7102(b)	#7104(c)	-	-
50mm	#7103(b)	#7105(c)	#7108(c)	#7113(c)
63mm	-	-	#7106(d)	-
75mm	-	-	#7107(d)	#7114

HOOK HOLDERS

The letter in bracket after the above part numbers refers to the appropriate hook holder below.

- (a) #7116 Suitable for #7101
- (b) #7117 Suitable for #7102, 3
- (c) #7118 Suitable for #7104, 5, 8, 7111, 3
- (d) #7119 Suitable for #7106, 7

JAY-BAR HOOKS

Moulded PETG hooks attach to Jay-Bar for jewellery displays, etc.

#7109 38mm

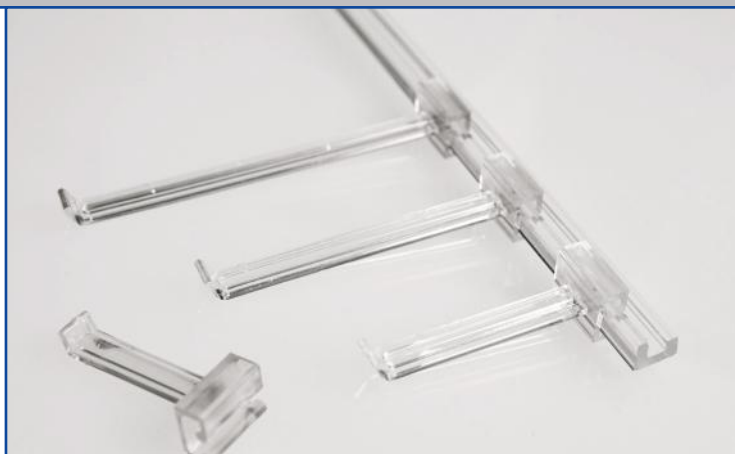

Heavy Duty - 10mm ribbed

#7136 38mm

#7137 50mm

#7138 75mm

#7139 100mm

PIN FITTING PLASTIC HOOKS

Push fit into 4.76mm pre-drilled holes on back panels of acrylic or other materials. Injection moulded in clear polycarbonate (see also PIN-MOUNTED SPECTACLE CLIPS p15).

- 'L'
- #7325 50mm
- #7326 100mm
- #7327 150mm

GLASS DOMES

Create stunning displays with these beautifully crafted domes. Use in conjunction with our jarrah bases.

- #0370 115mm dia. x 200mm high
- #0371 200mm dia. x 300mm high

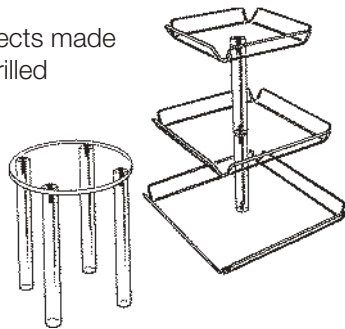

DRILLED AND TAPPED RODS

Build any style knock-down display with these clear 19mm acrylic rods that are drilled and ready to assemble. Tapped rods are an ingenious way of fabricating displays, enabling you to ship units flat and make it easier to replace broken parts. Available with either one or both ends drilled.

Single End Drilled		Both Ends Drilled	
#7350	101mm	#7360	101mm
#7351	152mm	#7361	152mm
#7352	203mm	#7362	203mm
#7353	254mm	#7363	254mm
#7354	305mm	#7364	305mm

Examples of projects made easier with pre-drilled acrylic rods.

SQUARE ACRYLIC BASE

150mm square base injection moulded in clear acrylic with stub to take #7509 acrylic tubing (see pg B1).

#7145

FLANGE

Injection moulded heavy-duty polycarbonate flange to take 25mm dia tubing or rod. Overall dia. 61mm It has 4 off 6mm dia holes on 50mm PCD. Incorporates a grub screw for tightening onto the tubing/rod.

#7549

PANEL CONNECTORS

Panel Connectors allow for the connection of panels of glass, acrylic or other panel material up to 5mm thick. Simple tightening of nylon grub screw allows for quick assembly and disassembly.

METAL PEG HOOKS

Our comprehensive range of display hooks provides you with a solution for hangsell merchandise in almost every situation. All our hooks can be used with pegboard or Plankwall.

STANDARD-DUTY SINGLE HOOK-CHROME

Our most popular hook range, 3mm diameter wire, deluxe chrome finish.

#0550	50mm
#0551	100mm
#0552	150mm
#0553	200mm

HEAVY-DUTY SINGLE HOOK - CHROME

Heavy 6mm wire prong, Deluxe chrome finish.

#0560	100mm
#0561	150mm
#0562	200mm
#0563	250mm
#0564	300mm

DOUBLE WIRE PEGHOOK

For slotted cards, deluxe chrome finish with solid metal backplate. Fits light and heavy duty pegboard and plankwall.

#0830	100mm
#0831	150mm
#0832	200mm
#0833	250mm
#0834	300mm

LOOP - TYPE HOOK

Strong 20mm wide plastic cover combined with standard duty wire hook for slotted cards, keeps products aligned without wobbling.

#0575	100mm
#0576	150mm
#0577	200mm

SCANNING HOOKS

LABEL HOLDERS

Universal for all types of scanning hooks, Clear plastic pocket protects plain paper label.

	Label Size
#0825	50 x 26 mm
#0826	80 x 26 mm
#0826A	80 x 39 mm

CHROME SCANNING HOOK

Medium-duty wire construction with solid backplate for 6mm pegboard or plankwall, deluxe chrome plated finish, Use in conjunction with our label holders (Purchased separately).

#0820	100mm
#0821	150mm
#0822	200mm
#0823	250mm
#0824	300mm

GLASS - FILLED PLASTIC SCAN HOOK

Glass - filled acetal plastic gives this hook three times the strength of un-filled plastic hooks. Self locking design locks hooks onto pegboard so that it can't wobble or lift out during use. Self loading slant back design. Use in conjunction with our standard label holders (ordered separately).

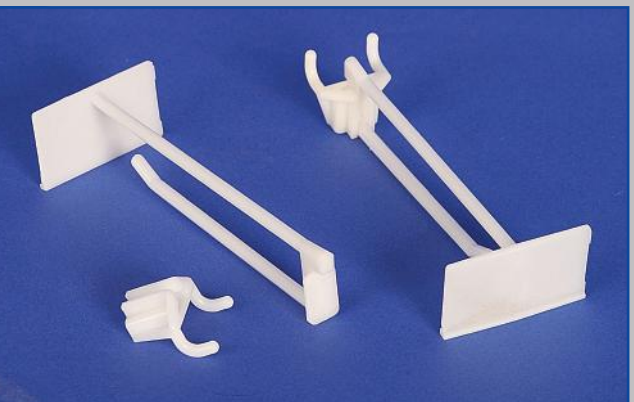

#0635	100mm
#0636	150mm
#0637	200mm

PLASTIC SCANNING HOOK

The first all-plastic scan hook system! Built in label holder for adhesive labels, two piece direct entry systems locks hooks onto pegboard so that it can't wobble or lift out during use.

#0630	50mm
#0631	100mm
#0631A	150mm

NOSE BRIDGES

The nose bridge provides a quick and clean way to provide professional looking eyeglass displays. Glasses fit over the bridge, with arms folding behind.

FLAT-GLUE-ON

#7334 Overall length 50mm

ANGLED-GLUE-ON

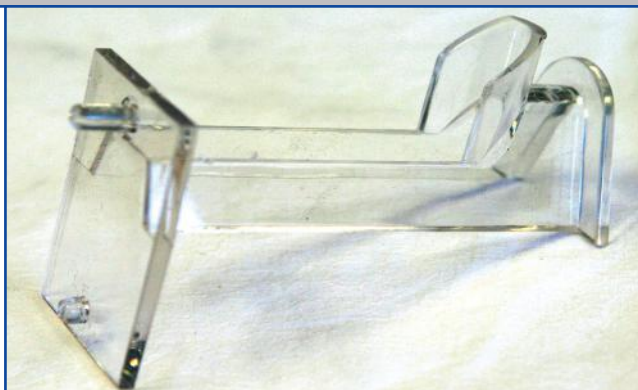

#7335

FLAT-PIN MOUNT

Push fit into 4.76mm dia hole on 38mm centres (vertically).
 Backplate size: 38mm wide x 50mm high.
 See other pin-mounted accessories on p10.

#7336 Overall length 80mm

GROOVED WALL MOUNT

Grooved Wall Mount - one piece molded design fits grooved wall or slot in up to 6mm thick back panel.

#0247 Length 50mm
 #0243 Length 80mm

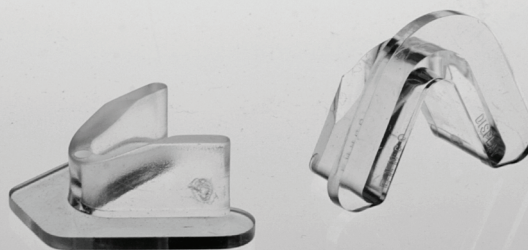

ROD MOUNT ATTACHMENTS

The following range of components is designed to clip to any 16mm dia rod or tube (apart from the solvent-bonded nose bridge). See Page 20 for 16mm acrylic rods available in either clear or frosted.

GLUE ON NOSE BRIDGE

Shaped to solvent bond onto rod.

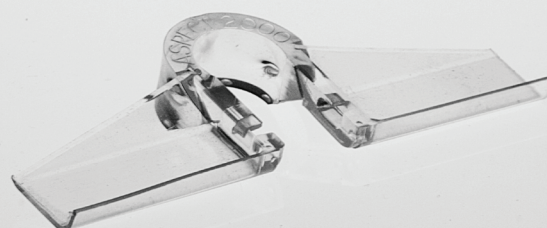

#7333

SPECTACLE ROD CLIP - STRAIGHT

Shaped to solvent bond onto rod.

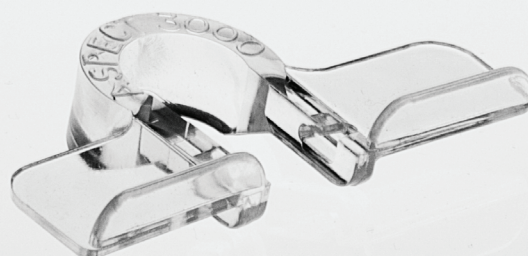

#7331 Clear polycarbonate. Overall length - 93mm

SPECTACLE ROD CLIP - FOR CURVED SUNGLASSES

Shaped to solvent bond onto rod.

#7330 Clear polycarbonate. Overall length - 67mm

GROOVED WALL CLIP

For supporting bent acrylic rods on to grooved wall system. Rod snaps securely in place.

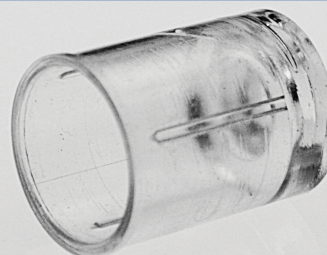

#0246 Overall length 50mm

ROD ATTACHMENT

With centre screw hole - for mounting 16mm dia rod either horizontally or vertically.

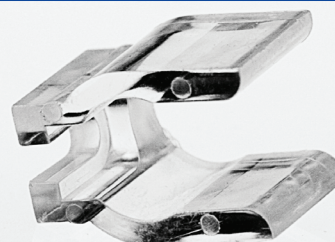

#7332 Clear polycarbonate. Overall length - 24mm

COLLAR

Glue to back of brochure pocket, sign holder or whatever you wish, then clip to rod. Also allows for countersunk screw slot.

#7328 Overall length 32mm

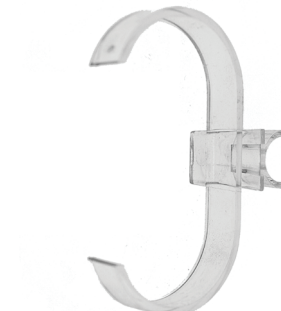

WATCH DISPLAY CLIP

This convenient clip is available with a number of different mounting options to make creative jewellery displays.

BUTYRATE PROFILES

The following extrusions are produced from clear butyrate material which can be solvent-bonded to acrylic. Sold in 2440mm lengths.

Endcap Moulding - Clear

#7805	to suit 3mm thick material
#7807	to suit 6mm thick material

Divider Moulding - Clear

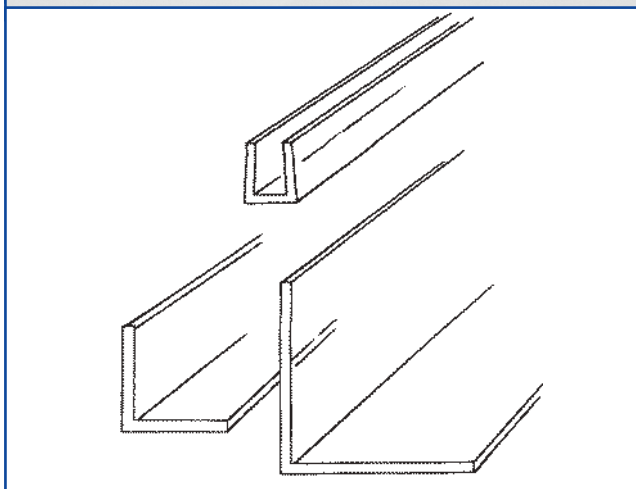

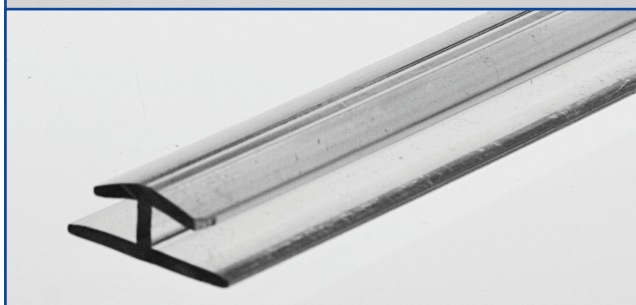

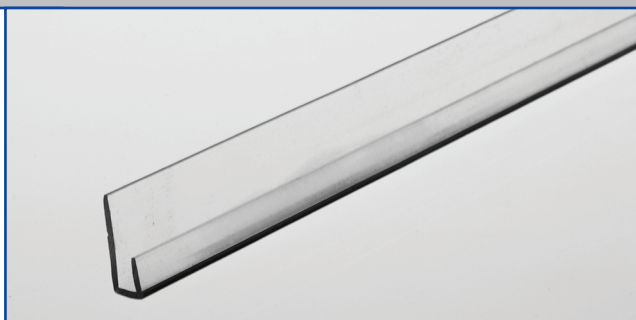

#7810	to suit 3mm thick material
#7812	to suit 6mm thick material

'U' Channel Moulding - Clear

#7801	to suit 6mm thick material
#7803	to suit 10mm thick material

Angle Moulding - Clear

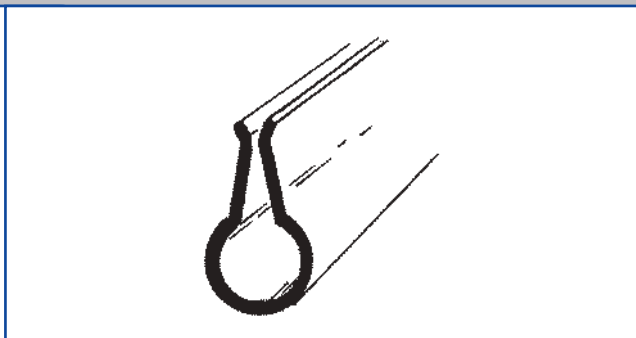

#7815	12mm x 12mm
#7817	25mm x 25mm

SIGNAGE EXTRUSION

Designed for supporting signage panels 2 -4 mm thick on an 8mm dia. rod. Their uses include glass edge "softener". Material - clear PVC.

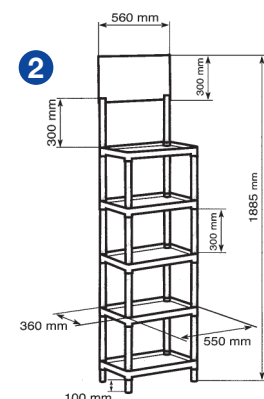

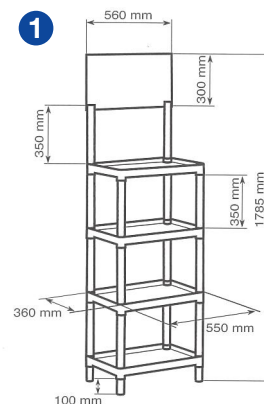

#4472	2440mm long
-------	-------------

- * We provide you with the basic shelf unit to transform into a fully branded display for your client.
- * Shelf units come fully packaged in their own kit for simple distribution.
- * Each unit comes complete with header card that for signage applications.

STANDARD SHELF

Shelf size - 550 x 360mm. White injection moulded shelves with clear PVC space tubes. Includes header card in screen-printable foamed

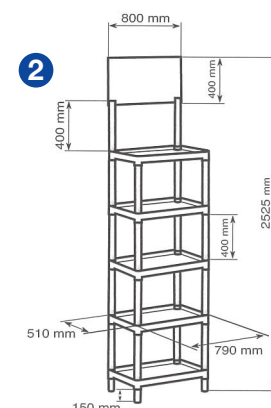

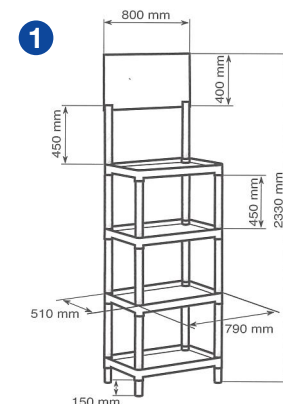

Overall height
(including header card)

- ① #1484 4-shelf unit – 1785mm
- ② #1485 5-shelf unit – 1885mm

MAXI-SHELF

Shelf size – 790 x 510mm. Super strength white injection-moulded shelves with clear polycarbonate spacer tubes. Includes header card in screen-printable foamed PVC sheet – 800mm(w) x 400mm(h)

Overall height
(including header card)

- ① #1494 4-shelf unit – 2330mm
- ② #1495 5-shelf unit – 2525mm

FABRICATION MANUAL

A fully illustrated 48-page manual for the intermediate and advanced craftsman working with acrylics. Includes sections on bending, cutting, sawing, shaping, moulding, polishing and more.

#7415

PLASTICUTTERS

Specially designed blade scores and cuts acrylic and other plastics up to 6mm thick. The position and the angle of the hardened steel cutting edge is the key to its ability to cut. Blades fold into handle for safe storage, but snaps in place when opened. An excellent tool for field work.

#7265 Standard Duty
#7268 Heavy Duty

EDGE SCRAPER

This unique four-function tool prepares edges for buffing or flame polishing. This easy grip tool removes saw cuts and sharp corners, bevels thick materials (up to 10mm) and will radius edges (up to 6mm thick).

#7269

CERAMIC SCRAPER

Use for scraping flat surfaces and also for bevelling and radius edges. These quick and handy tools make it easy to deburr holes and curves of any size. The amazing ceramic technology provides unsurpassed ease of use and finished product.

① #7275 Ceramic Scraper - small
② #7276 Ceramic Scraper - large

DRILL BITS

Specially manufactured to produce smooth holes in acrylic. The special tip angle allows for gradual penetration of material, thus eliminating damage to back side of material. Modified rake angle of 10° and cutting edge of 10° produces smooth chip-free hole when working with acrylics.

#7256	29pc set - 1/16" - 1/2" by 1/64ths
#7257	37pc set - 1/16" - 1"
#7258	8 pc set - 9/16" - 1" by 1/16ths

DOUBLE-SIDED PAPER TAPE

High performance, medium tack adhesive tape for template routing. Can be used several times before needing replacement. Leaves no residue.

#0795	19mm wide x 33mtr long
-------	------------------------

ACRI-BOND 105

Clear, fast-curing, water-thin solvent cement ideal for joining uncross-linked cast and extruded acrylic, polycarbonate and ABS. Also suitable for many other applications (see chart). Provides instant initial bonding which makes it ideal for T-bonds and narrow areas of all kinds. Recommended application by brush, syringe or needle applicator.

#7215 500ml sealed metal can (includes 1 x pouring spout for every 2 cans)

#7216 4.0L sealed metal can with pouring spout.

Our glue bottles and syringes are the choice for bonding acrylics and other plastics using the capillary method. For best results, assemble parts to be glued in their final positions, then apply a thin line of solvent cement along the edge where the parts meet. The cement will run into the joint and bond evenly and smoothly.

GLUE BOTTLES

The oval squeeze bottle is the most popular tool for applying solvent cement. Simply squeeze some air out of the partially filled bottle before inserting to avoid drips, and you'll have an even, controlled flow. Glue bottles are designed for easy needle replacement in case of clogging.

#7084 55ml bottle with lid for interchangeable needles

SYRINGE

The syringe applicator gives the same even capillary control as the oval glue bottle but also offers better control for hard to reach places. Easy to fill and replace needles.

#7094 30ml Syringe

NEEDLE

The larger the needle gauge, the smaller the needle diameter. The smallest is the 27 gauge which gives fine flow control. The 25 gauge needle is the most popular choice for many fabricators. For production applications, some fabricators prefer the 22 gauge needle for faster solvent flow. The 16 gauge needle allows for the use of thickened adhesives.

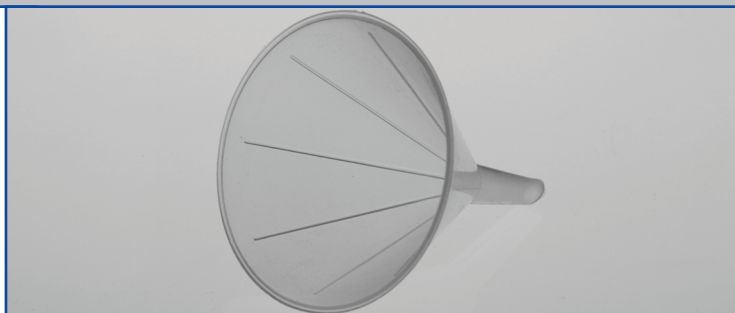

#7070 20 Gauge	#7072 25 gauge
#7071 22 gauge	#7077 27 gauge
#7073 16 gauge	

FUNNEL

This small funnel makes filling glue bottles neat and easy.

#7080

"WITCH HAT" APPLICATOR

Easy to use and re-fill this "squeeze" bottle allows for the application of thickened cements.

#7081

BRILLIANIZE

Specially formulated to clean acrylic and other plastic surfaces without scratching or hazing. Contains anti-static to resist fingerprints and dust. Certified non-toxic, no skin or eye irritant

#7052 250ml Spray
#7051 4 Litre

COTTON GLOVES

Greatly reduces clean up time by eliminating fingerprints on fabricated parts. Available in men's or women's sizes. Sold by the dozen pairs.

#7053 Men's - sold per dozen pairs
#7054 Ladies - sold per dozen pairs

POLISH MATE CLOTHS

Don't use the wrong cloth to clean plastic surfaces!!! Eliminate scratching with the Polish-Mate cloths that offer cloth-like softness in a disposable wipe. They are highly absorbent, abrasion resistant, low-lint and extra durable.

#7067

SPLIT MICRO FIBRE CLOTHS

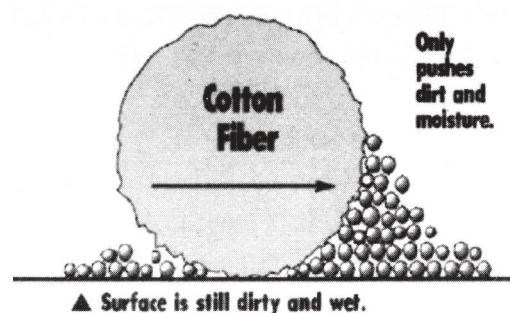

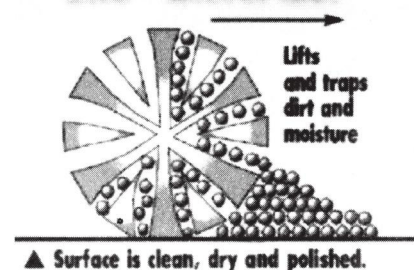

Microfibre is a man made product that contains 2 basic fibres - polyester and polyamide, producing fibres with a thickness less than a human hair that have been split 16 times into a "V" shape. The fibres are then woven into fabric of 80% polyester (the scrubbing and cleaning fibre) and 20% polyamide (the absorbing and quick drying fibre)

The benefits of split micro fibre cloth is that the surface area of the cloth is increased by over 15 times creating millions of crevices which trap and hold water and debris. Split microfibre cloths are re-usable, machine wash with laundry detergent or hand wash with dish soap in hot water. Do not use bleach or fabric softeners. Air dry

#7059 (aqua) For final polishing - also excellent for spectacles, CD's, camera lenses, LCD Screens

ERC - MicroFiber

ACRI-BOND CLEANER

Clear, water-thin, fast evaporating, solvent-based cleaner developed for acrylic. Also good for other plastic materials such as polycarbonate, HIPS & ABS. Test before use. Apply to clean cloth and wipe gently. Change cloth sides regularly to avoid scratching surface.

#7241 4.0L sealed metal can

ACRI-BOND MASKREM

Clear, water-thin, slow evaporating, non-hazardous cleaner developed for removing stubborn masking paper or residue from acrylic. Also good for other plastic materials such as polycarbonate, HIPS & ABS. Test before use. Apply liberally over residue to be removed. Leave until soaked, then scrape or remove paper or tape. To remove remaining residue, apply to cleaning cloth and wipe gently. Use ACRI-BOND CLEANER for final touches.

#7242 1.0L sealed metal can

TUFBUF LAMBSWOOL PADS

Superior quality pure lambswool buffing pads with hook and loop backing plate to attach to a foam pad for drill attachment or with variable speed polishers. Choose from 12 or 20 nap.

12mm nap

#7450 125mm diameter

#7451 180mm diameter

20mm nap

#7455 125mm diameter

#7456 180mm diameter

MACHINE BUFFING WHEELS

Loose layered buff wheels can be stacked together for a wider working area.

#7460 200mm, 60ply Arbor size 16mm

#7461 250mm, 60 ply Arbor size 25mm

CONCENTRIC STITCHED BUFFING WHEEL

Eliminate the hard spot that spiral stitched buffs have.

#7465 250mm, 40 ply Arbor size 25mm

BUFFING COMPOUND

Three different grade bars available for polishing acrylics and other plastics with a buffing wheel. All bars measure approx. 260mm long x 65 x 50 mm.

Basic Finish Compound

#7271 for course fast buffing
Red Tripoli

Final Finish Compound

#7272 Blue rouge

MICRO FINISH

Final polishing liquid to remove any residual haze.
Use to brighten and obtain pristine finish.

#7083	55ml
#7085	225ml
#7086	4.5L

ANTI-STATIC CREAM

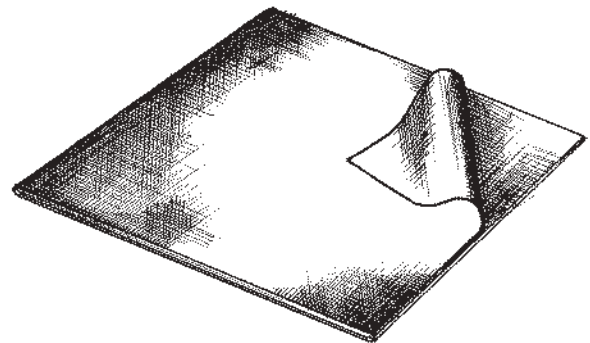

The liquid contains a protectant and is designed to remove static electricity that could cause dirt and dust to be drawn back to your newly polished surface.

#7087	55ml
#7088	225ml
#7089	4.5L

FLANNEL CLOTH

100% flannel cloth recommended when using Micro Gloss liquid abrasives. Size 300 x 275mm

#7055

MICRO GLOSS

A general all purpose water based liquid abrasive which uses either a one micron or five micron aluminum oxide crystal to achieve a fine finish on acrylics, polycarbonates, paints lacquers, fiberglass etc...

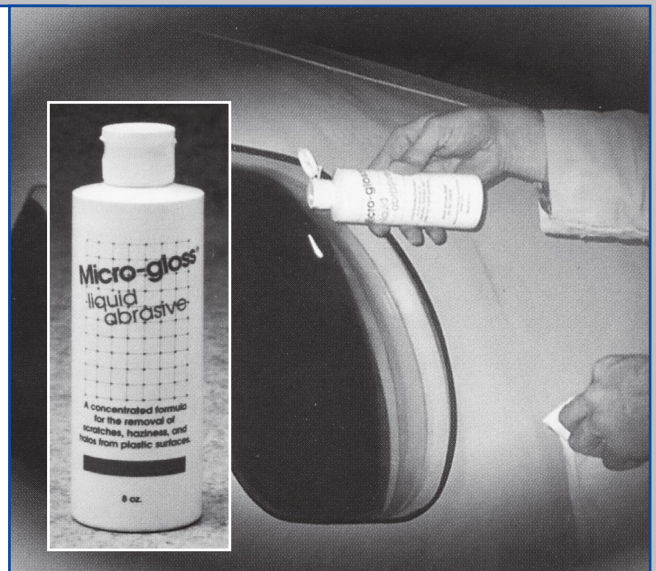

This unique liquid removes hairline scratches, haziners and halos untouched by other products. Approved as safe for use on the inside and outside surfaces of F16 aircraft. Used by hand or machine with lambswool polishing pad (Micro Gloss will not remove any damage that can be felt by a fainger nail).

Micro Gloss # 1

#7064	55ml
#7065	225ml
#7066	4.5L

Micro Gloss #5 for heavier applications

#7074	55ml
#7075	225ml
#7076	4.5L

MICRO-MESH™

Micro-Mesh™ is available in a wide range of belts, tapes, discs - Velcro grip or adhesive backed to suit many different polishing applications. Display Components now stocks the following repair kits for mechanical or hand operation. All kits come with detailed step by step instructions.

ACRYLIC RESTORAL KITS

The most popular kit - will restore up to 3 square metres of material. Kit includes:

- #7155**
- 1 - 150 x 75 sheet 1500
 - 1 - 150 x 75 sheet 1800
 - 1 - 150 x 75 sheet 2400
 - 1 - 150 x 75 sheet 3600
 - 1 - 150 x 75 sheet 4000
 - 1 - 150 x 75 sheet 6000
 - 1 Micro Gloss - 55ml
 - 1 - 75mmsq Foam Block
 - 2 - 300mmsq Flannel Cloth

- #7156**
- 2 - 150 x 75 sheet 1500
 - 2 - 150 x 75 sheet 1800
 - 2 - 150 x 75 sheet 2400
 - 2 - 150 x 75 sheet 3600
 - 2 - 150 x 75 sheet 4000
 - 2 - 150 x 75 sheet 6000
 - 2 Micro Gloss - 55ml
 - 1 75mmsq Foam Block
 - 2 300mmsq Flannel Cloth

- #7157**
- 1 - 300 x 150 sheet 1500
 - 1 - 300 x 150 sheet 1800
 - 1 - 300 x 150 sheet 2400
 - 1 - 300 x 150 sheet 3200
 - 1 - 300 x 150 sheet 3600
 - 1 - 300 x 150 sheet 4000
 - 1 - 300 x 150 sheet 6000
 - 1 - 300 x 150 sheet 8000
 - 1 - 300 x 150 sheet 12000
 - 1 - 75mmsq Foam Block
 - 1 - Bottle Anti-Static Cream
 - 2 - 300mmsq Flannel Cloth

Here are some basic guidelines on how to repair damaged acrylic and restore to new appearance:

Crazing

A series of very fine I lines, stars or haze when viewed at an angle in bright light. Crazing is below the surface and usually cannot be felt with the fingernail. Requires aggressive sanding to remove. Begin with 220 grit wet/dry sandpaper.

Deep Scratches

Easily felt with the fingertip. Begin with 220 grit wet/dry sandpaper.

Minor Scratches

Readily detected with fingernail. Begin with 1500 Micro-Mesh. If the scratch is not easily removed use 400 wet/dry sandpaper followed by Micro-Mesh 1500.

Hairline Scratches & Light Scuffs

Light scratches and hazing - Begin with 2400 or 3600 Micro-Mesh.

Very Fine Scratches

Usually caused by improper cleaning methods. Begin with 4000 or 6000 Micro-Mesh.

"MINI-FLUORO" LIGHTING SYSTEM

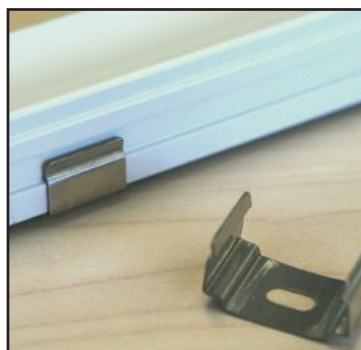

The "Mini-Fluoro" lighting system offers an excellent energy-saving method of illumination in small spaces, recesses and cove lighting applications.

These fittings are fully assembled with built-in electronic ballast and linkable by means of standard connectors, saving you time while eliminating the need for qualified electricians to wire up.

High quality construction for long life in commercial applications.

"MINI-FLUORO" FITTING

Low profile design – only 23mm wide x 40mm high. Fitting includes T5 fluorescent tube in Tri-phosphor Cool Daylight colour. Optional polycarbonate diffuser cover available.

* Unit includes stainless steel mounting clips for easy installation.

Unit without diffuser	Unit including diffuser	Nom. Length	Wattage	Max. No. Linkable
#7950/2	#7955/2	600mm	14W	12
#7950/3	#7955/3	900mm	21W	8
#7950/4	#7955/4	1200mm	28W	6
#7950/5	#7955/5	1500mm	35W	4

MAINS CABLE

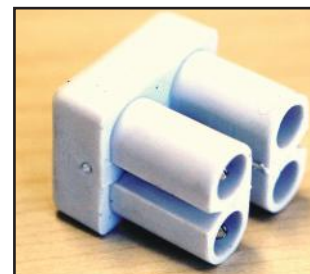

1800mm long lead with standard 2-pin plug and fitting on other end to attach to fluoro.

#7968

DIRECT CONNECT

Attaches 2 x fluoros end to end.

#7960

VERTICAL GLASS CLIP

Fits panels up to 8mm thickness.
Colour – white

#7966 – 80mm
#7964 – 250mm
#7962 – 500mm

6mm ROD FITTINGS	40
WALL-MOUNTED ROD FITTING	40
WALL-MOUNTED PANEL FITTINGS	41
HANGING KITS	42
COMPONENTS	44

Durable kits provide the solution for any display situation from the common “floor to ceiling” configuration to various wall-mounted applications. (Numbers relate to individual components that are available separately - see p.44 for item numbers).

1.5mm Cable

#1800 - Kit includes 3.6mtr length of stainless steel cable.

#1800L - Kit includes 5mtr length of stainless steel cable.

- Cables are fitted with top bulb that eliminates any possibility of cable pulling through.
- The strength of the cable installation depends on the ceiling being able to take the weight.

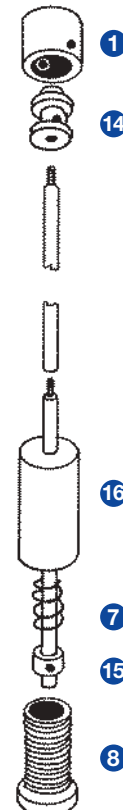

3mm Cable

3mm thick cable provides extra stability to the cable display with less movement between fittings.

#1840 - Kit includes 5mtr length of stainless steel cable.

6mm Rod

Ideal where extra rigidity is required. 6mm chrome plated steel rod comes in 1.0 meter lengths that can be joined together and trimmed to make up the exact length.

#1900 - Floor - Ceiling fittings (Rod purchased separately).

#1910 - 6mm dia chrome rod- 1.0mtr length. e.g. for 2.6 metre height you would need to order 1 x 1900 and 3 x 1910 to give you 1 vertical.

MOUNTING TRACK

Aluminium extrusion with sliding fittings that allows for lateral adjustment of individual vertical cables and rods. May be recessed into board to make flush fitting.

#8852 Mill Finish aluminium - length 4.0mtrs

#8852A Anodized aluminium - length 4.0mtrs

#1826 Threaded plate and screw
(set consists of 1 plate and 1 screw)

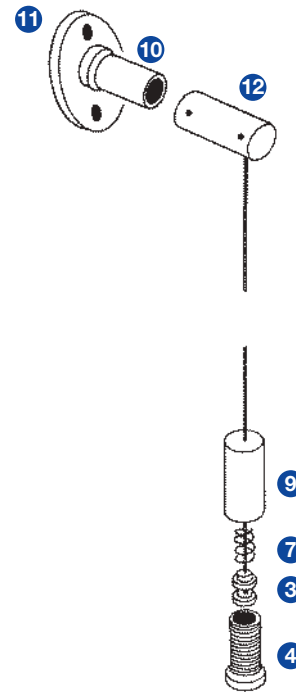

Our wall-mounted cable kits all utilize 1.5mm diameter stainless steel cable. (Numbers relate to individual components that are available separately - see p.44 for item numbers).

WALL-WALL POSTER KIT

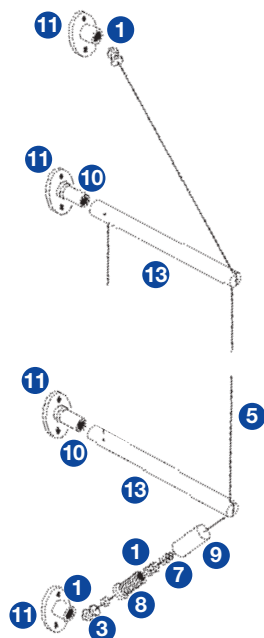

#1802 - Designed to display vertical panels 45mm from wall (mount wall fittings pull cable through bottom wall spacer and tension with pliers, then tighten up with grub screws).

WALL-FLOOR POSTER KIT

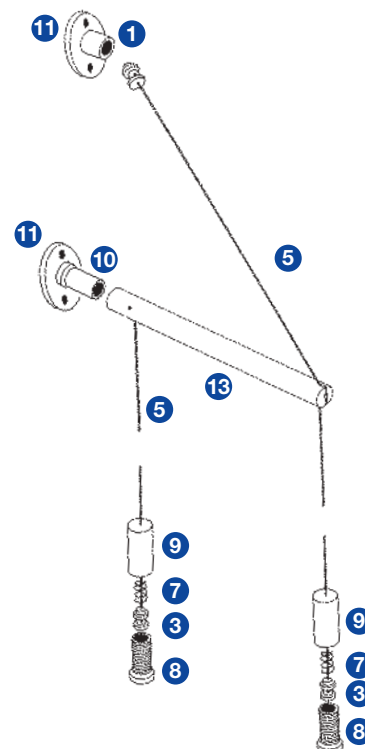

#1801

WALL-WALL SHELF KIT

#1806 - Designed for shelving, panels etc. Rod extends 260mm from wall. Minimum shelf width 215mm (when used horizontally)

WALL-FLOOR SHELF KIT

#1805

1.5mm CABLE FITTINGS

CABLE FASTENER

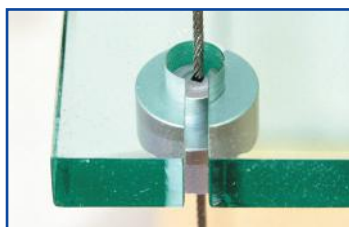

Attaches to cable with M4 thread through centre.
Used for attaching panels/cabinets to cables.

20mm Diameter x 13mm Long
#1812 Anodized Aluminium

THROUGH-HOLE SHELF SUPPORT

Requires 9mm dia. hole in shelf. Can be used with any thickness material.

20mm Diameter x 15mm High
#1811 Anodized Aluminium

A 2mm wide slot from the centre of the hole to edge of the shelf will allow the shelf to be removed without altering the cable.

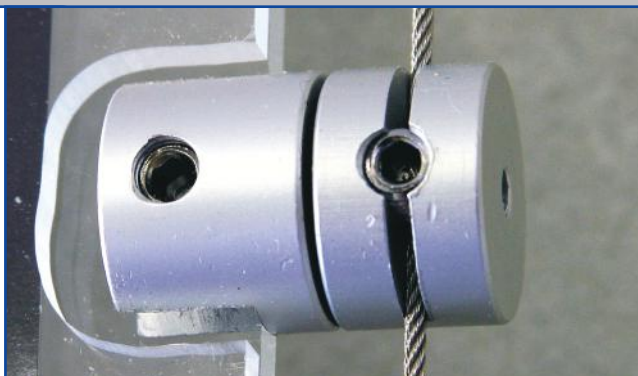

SINGLE FITTING

Swivel fitting allows for mounting of flat or sloping shelves or vertical display panels.

20mm Diameter x 30mm Long
Anodized Aluminium

#1813 to suit panel thickness up to 4mm
#1817 to suit panel thickness up to 7mm
#1819 to suit panel thickness up to 10mm

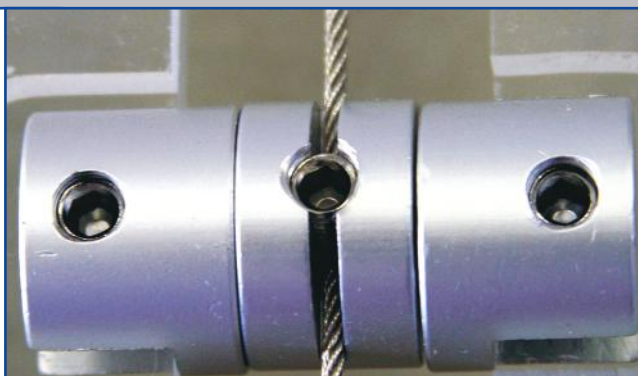

DOUBLE FITTING

Swivel fitting allows for mounting of flat or sloping shelves or vertical display panels.

20mm Diameter x 45mm Long
Anodized Aluminium

#1823 to suit panel thickness up to 4mm
#1827 to suit panel thickness up to 7mm
#1829 to suit panel thickness up to 10mm

MINI PANEL FITTINGS

Our new mini fittings allow for mounting vertical panels in a single or double sided configuration. Slimmer profile makes fitting less obtrusive. Will take up to 4mm thick panel.

#1898 Single sided - Anodized aluminum. Size 15mm dia x 30mm long
#1899 Double sided- Anodized aluminum Size 15mm dia x 45mm long

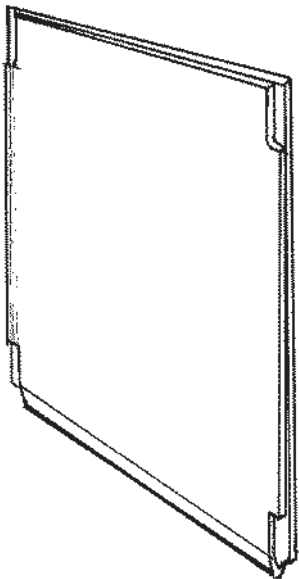

ACRYLIC GRAPHIC PANELS

- Folded clear acrylic sandwich panels for a comprehensive solution for interchangeable displays
- Easy access pockets allow for changing of the poster without touching the panel fittings.
- Any combination of pockets with the same cable spacing can be used in the same vertical drop.

SINGLE POCKETS

Clear acrylic.

		*Cable Spacing (mm)
#1881P	A4 Portrait	265
#1881L	A4 Landscape	355
#1885P	A3 Portrait	355
#1885L	A3 Landscape	490
#1892P	A2 Portrait	490

#1891P	A1 Portrait	670
#1891L	A1 Landscape	895
#1890P	A0 Portrait	895

MULTIPLE POCKETS

An economical alternative that reduces the number of cables and fittings required.

		*Cable Spacing (mm)
#1882P	Double A4 Portrait	490
#1882L	Double A4 Landscape	670
#1883P	Triple A4 Portrait	715
#1886P	Double A3 Portrait	670

* Actual panel width is 25mm less than cable spacing.

3mm CABLE & 6mm ROD FITTINGS

3mm CABLE FASTENER

Attaches to cable
M4 thread through centre.
Size: 20mm dia. x 13mm long.

#1842

6mm ROD FASTENER

Attaches various furniture items to rod, has M4 thread through centre. Size: 20mm dia. x 16mm long.

#1912

3mm THROUGH-HOLE SHELF SUPPORT

Requires 9mm dia. hole in shelf. Can be used with any thickness material. Size: 20mm dia. x 15mm high.

#1841

6mm ROD SINGLE FITTING

Swivel fitting allows for mounting of flat or sloping shelves or vertical display panels. Size: 20mm dia x 33mm long.

- #1913 To suit panel thickness of 3mm.
- #1917 To suit panel thickness of 7mm.
- #1919 To suit panel thickness of 10mm.

3mm SINGLE FITTING

Swivel fitting allows for mounting of flat or vertical shelves or vertical display panels. Size - 20mm dia. x 30mm long.

- #1843 To suit panel thickness of 3mm.
- #1846 To suit panel thickness of 7mm.
- #1848 To suit panel thickness of 10mm.

6mm ROD DOUBLE FITTING

Swivel fitting supports shelves etc, on either side of a central cable. Size: 20mm dia x 48mm long.

- #1923 To suit panel thickness of 3mm.
- #1927 To suit panel thickness of 7mm.
- #1929 To suit panel thickness of 10mm.

3mm DOUBLE FITTING

Swivel fitting supports shelves etc., on either side of central cable. Size - 20mm dia. x 40mm long.

- #1844 To suit panel thickness of 3mm.
- #1847 To suit panel thickness of 7mm.
- #1849 To suit panel thickness of 10mm.

WALL-MOUNT ROD FITTING

Rod-wall-mount fitting. Priced each.

#1835

WALL-MOUNT FITTINGS

THROUGH HOLE PANEL FITTING

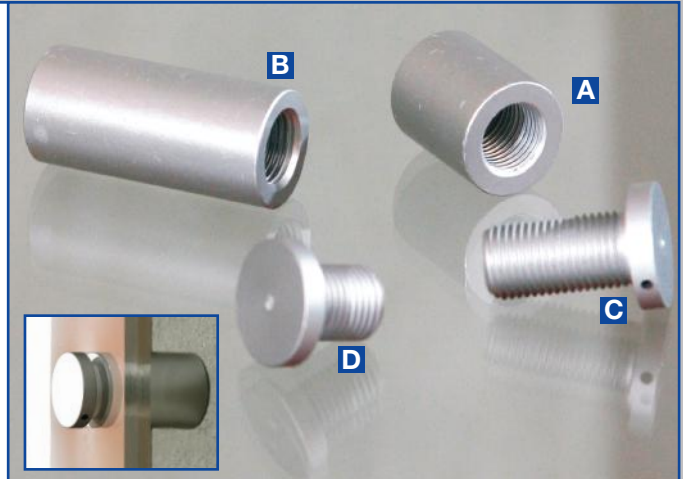

Requires 14mm dia. hole in panel. Fittings may be mixed and matched to provide the desired combination of wall spacing and panel thickness. All fittings are 20mm dia. Finished - anodised aluminium.

Barrels

- A #1858** Length, ie. gap from wall - 25mm
B #1861 Length, ie. gap from wall - 45mm

Screws

- C #1856** to suit max. panel thickness - 16mm
D #1859 to suit max. panel thickness - 10mm

EDGE GRIP PANEL HOLDER

Simply tighten onto the edges of your panel at the top, bottom or side. Attach to wall through the centre of the shaft, slide panel fixing on and tighten grub screws. All fittings are 20mm dia. Finish - anodised aluminium.

- #1831** Max. Panel thickness - 10mm
 Gap from wall - 25mm
#1832 Max. Panel thickness - 4mm
 Gap from wall - 25mm
#1835 Max. Panel thickness - 7mm
 Gap from wall - 45mm

PANEL SUPPORTS

Can be mounted in virtually any position for mounting small shelves or signage panels at any angle. Size - 20mm dia x 16mm long O/A

- #1833** to suit panel thickness up to 4mm
#1837 to suit panel thickness up to 7mm
#1839 to suit panel thickness up to 10mm

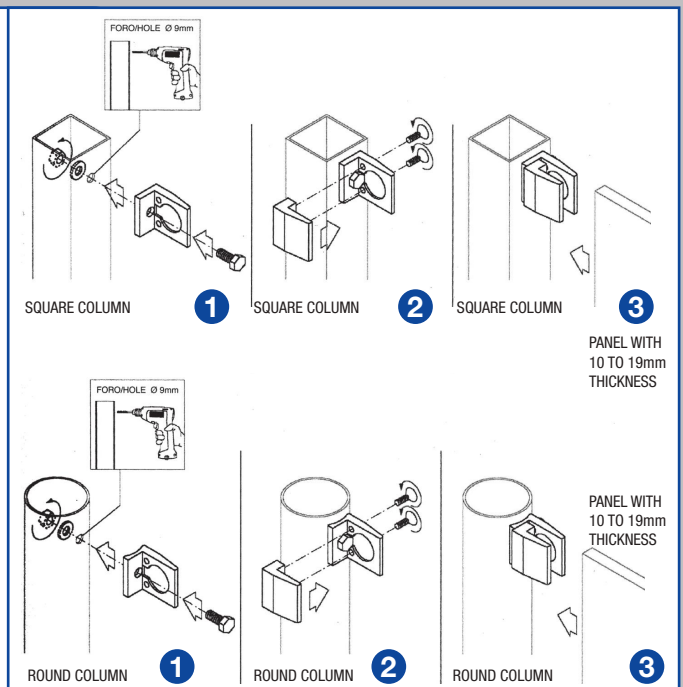

PANEL SUPPORTS

For attaching to framework – flat design for attaching to flat surface, or concave design for attaching to round tubes. Includes M8 bolt for attaching to threaded holes or with nut for attaching to structures where back is accessible.

Variable fastening for panels 10 – 18mm thick.
 Size – 46mm deep x 40mm high. Finish – Chrome

- 1 #1965** Flat back surface
2 #1966 Concave back surface

HANGING KIT

#1950

2 piece screw on fixing.

#1951

1 metre cable with ball end.

SWIVEL MOUNTING BRACKET

#1961

For attaching picture frames etc.

CABLE HANG KITS

Select the kit according to the thickness panel you are suspending.

#1803 to suit 3mm panel thickness

#1807 to suit 7mm panel thickness

#1809 to suit 10mm panel thickness

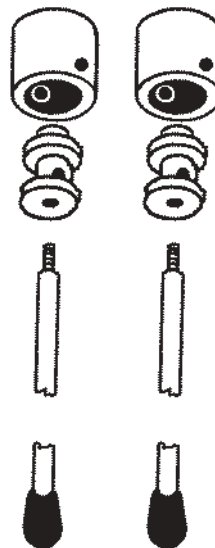

Priced individually - i.e. you will need 2 kits to suspend 1 sign.

ROD HANG KITS

#1840

Includes 2 x ceiling fittings and 2 x chrome plated steel rods - 500mm long
(Rod fittings to hold panel supplied separately).

PICTURE HANGING SYSTEM

The aluminum track is fixed to the wall at the desired height or onto the ceiling. The swivel fitting simply slides in the end of the track to the desired location. Set the Slide-Lock hook fitting to the desired height by pushing the button and your artwork is now ready to hang. The system allows for infinite adjustment with no tools required. Additional hook fittings are available to hang more than one picture in a vertical drop.

**Additional Hook Fitting
#1971**

Aluminium Track

#8852

4 metre length.
Available in Mill Finish (M)
or Anodised (A).

Top swivel fitting in
aluminium track.

Hanging Kit

Includes swivel top fitting
with cable and 1 x AUTO
hook fitting that can be
adjusted at the push of a
button.

#1970

900mm cable.

#1972

2000mm cable.

THROUGH HOLE PANEL FITTING

High quality polished chrome finish.
Diameter – 20mm
Distance (wall to back of panel) - 54mm
Max. panel thickness - 10mm
Hole diameter for mounting – 6.5mm

#1955

THROUGH HOLE PANEL FITTING

High quality polished chrome finish. Component design
allows for different display combinations, including multi-
layered panels.
Diameter – 30mm
Max. panel thickness - 25mm
Hole diameter for mounting – 7mm

Each set contains the following components:

- ① Wall-mount flange x 2 off
- ② Threaded distance spacer
- ③ Threaded rod
- ④ Fastening cover

	Distance (wall to back of panel)
#1967	30mm

WALL-STRIP BROCHURE SYSTEM

Based on the AP1522 single A4 brochure holder, this system is supplied in a kit with all components for providing a smooth and even presentation for displaying literature on a wall surface.

AP1528 - Complete kit for 16 x A4 brochures. Each kit contains:

- ① 1 x AP1535 - Aluminium wall strip - 950mm (L)
- ② 32 x AP1531 - Joining clips.
- ③ 4 x AP1530 - Back support brackets.
- ④ 16 x AP1522 - A4 brochure holders.
- ⑤ Purchase AP1533 dividers if required to divide pockets into double DL.

ADJUSTABLE SYSTEM

A superb, innovative method of displaying literature, calendars and thin packaged items. Can be set up to display any size material with the added bonus that single pieces can be added on as required, with each additional element creating a 3 pocket display at less than half the cost of a standard brochure holder.

AP1535 - Aluminium wall strip 950mm long

AP1537 - Individual pocket clips on to aluminium wall strip

CAROUSEL BROCHURE SYSTEM

*The TAYMAR Carousel Brochure System is a totally free-standing system that allows you to select from a range of pocket sizes and combinations to suit your exact requirements.

*Now even more versatile and user-friendly with individual compartments that rotate on a separate 3 or 4-sided pole sleeve.

*Assembles in seconds – just follow these simple steps:

1. Choose your base & pole combination.
2. Select the 3 or 4-sided pole sleeves – different heights for A4 or A5/DL combinations.
3. Select the appropriate number of single pockets and slide them on to the pole sleeves.
4. Select a top signholder for a branding message, if required.

CHROME BASE & POLE

Size - 20mm dia x 30 mm long.

AP1551/56 450mm dia. base & pole.

AP1552/56 350mm dia. base & pole.
(350mm base not recommended for brochure holder application)

NYLON BASE & POLE

Heavy duty moulded black nylon base with 38mm pole. Pole height - 1600mm (may be cut to length).

AP1553
600mm dia. base

AP1548/49
500mm dia. base

AP1555B
Push-in braking castor for nylon base. Order individually - 5 per base).

METAL STAR BASE & POLE

Heavy duty fully welded construction including nylon hooded castors & 38mm chrome pole. Pole height - 1600mm overall height - 1700mm

AP2064/46 - 600mm dia. base & pole.

SIGN HOLDER

With fitting to slide into top of 38mm chrome tubing. Acrylic sleeve chrome channel.

JET-WIRE® MOBILE SPRING

Jet-Wire® is an expanding spring hook which remains in desired position when it's pulled. Can be loaded with up to 1kg in all positions. Tensile strength when completely extended up to 3,5kg. Attach Jet-Wire® to the ceiling and pull down to desired position. Hooks on foldable wire make hanging simple and fast.

'S' HOOKS

Allows hanging of multiple signs or other objects in tandem.

- #1771 25mm long
- #1773 45mm long
- #1772 100mm long - heavy duty

UNIVERSAL SPRING CLIPS

A. Mighty Clip

50mm overall length with 10mm dia. rotating ring and spring clip. Black or White.

#5039

B. Super Mighty Clip

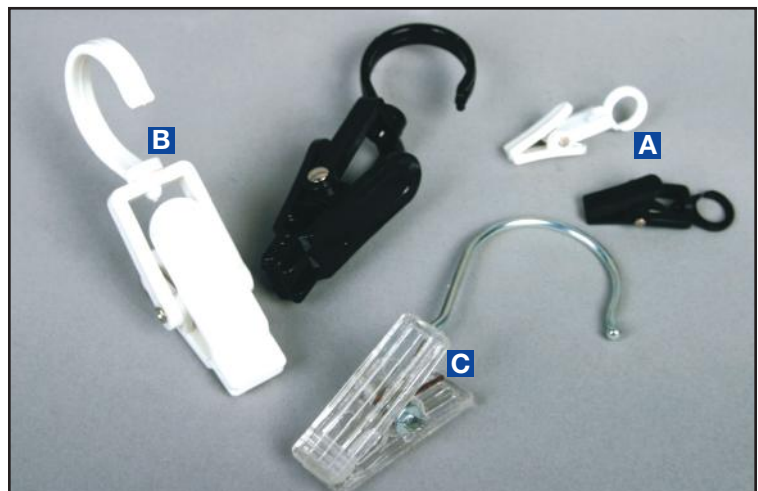

100mm overall length with 25mm dia. rotating ring and heavy duty spring clip. Black or White.

#5033

C. Boot Clip

120mm overall length with wire coat hanger hook and heavy duty clear plastic spring clip.

#5034

POSTER RAILS - PLASTIC

- In-store poster hanging has never been easier thanks to our range of poster rails that allow you to suspend graphics from thin paper to foamboards.
- Our range of ceiling-mount fittings offer fixed or variable length hooks that can be mounted onto suspended ceiling grid systems or flushed ceilings.
- Our new REEL-EASY retractable suspension fitting means that you'll never have to climb a ladder again to change signage.

PLASTI-SLIDE

- Our lowest price sign holder.
- Sturdy yet lightweight.
- No scoring or stapling necessary.
- Simply slides on to graphic.

#1776/3 1000mm (L)

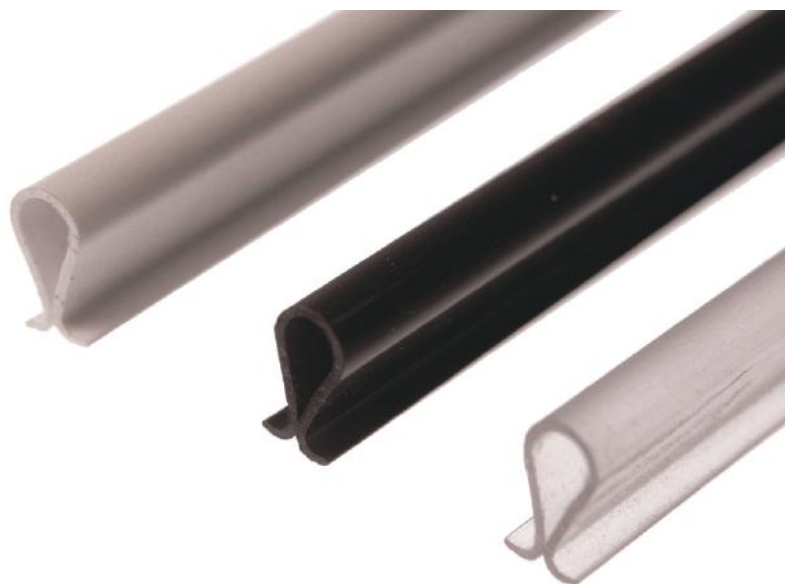

#1776/4 1250mm (L)

#1776/8 2400mm (L)

Available in Clear (CL), Black (BL)
or White (WH).

AP1777
Hanging clip.

PLASTIC-GRABBERS

- Our most popular sign holder.
- Easiest to use - simple snap open, insert your graphic then snap shut.
- Install and replace in seconds.
- No scoring or stapling required.

#1780/3 1000mm (L)

#1780/4 1200mm (L)

#1780/8 2400mm (L)

#1780/10 3000mm (L)

Available in Clear (CL), Black (BL)
or White (WH).

Hanging Clips

#1778
Clear Plastic.

#1759
Metal Clip.

ALI-INFO RAIL

This ALI-INFO system provides you with the most versatile signage system - a perfect combination of elegant, metallic appearance together with rigid construction that totally eliminates bowing over long lengths.

Available with accessories for a wide range of graphic materials - from thin paper, vinyl banner to 5mm thick foam board.

- #1787/3 1000mm (L)
- #1787/4 1250mm (L)
- #1787/8 2500mm (L)
- #1787/5M 5000mm (L)

Available in Clear Anodised (AN) or Polished Silver (PS).

END CAP

Black plastic cap pushes into end to provide a finished look. When you need to change the graphic simply rotate.

- #1779 Black plastic.

HANGING CLIPS

- 1 #1778 Clear plastic.
- 2 #1759 Pressed steel-zinc finish.

ALI-INFO + PLASTI-SLIDE

The economy of the PLASTI-SLIDE in conjunction with the rigidity of the ALI-INFO-RAIL. Works best in semi-rigid substrates up to 2mm thick. For longer lengths you can use a number of 300mm long PLASTI-SLIDE pieces for easier attachment.

- #1789/3 1000mm (L)
- #1789/4 1250mm (L)
- #1789/8 500mm (L)

Includes 2 x end caps.

Specify aluminium finish:

Clear Anodised (AN) or Polished Silver (PS).

ALI-INFO + PLASTI-GRABBER

ALI-INFO-RAIL can accept up to 4.5mm thick foam board without scoring. Use #1736 plastic rivet on rigid substrates of thinner material.

- #1792/3 1000mm (L)
- #1792/4 1250mm (L)
- #1792/8 2500mm (L)

Includes 2 x end caps.

Specify aluminium finish:

Clear Anodised (AN) or Polished Silver (PS).

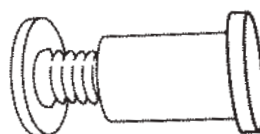

ALI-INFO-RAIL & SEWN BANNERS

ALI-INFO-RAIL will accept vinyl or canvas banners with a sewn pocket to take an 8mm dia. dowel.

ALI-INFO-RAIL & RIGID SUBSTRATES

- #1736

- Drill 6mm diameter holes down 6mm (to centre)
- Push in plastic rivets from either side
- Slide into rails on inside of aluminium extrusion

ALI-INFO-FRAME

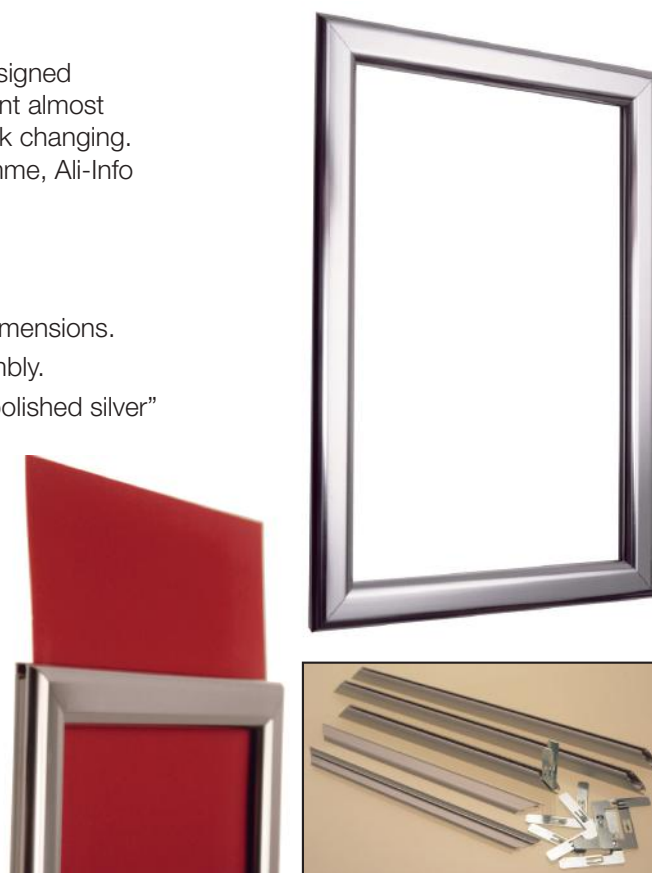

More than just a great-looking frame - Ali-Info Frames are designed for maximum versatility and utmost ease of use. Able to mount almost anywhere, once assembled graphics slide in and out for quick changing. Whether you have one graphic to display or a whole programme, Ali-Info Frame provides the universal solution.

- Can be mounted to walls, windows, ceilings and floors.
- Top or side loading for easy changing.
- Choose from standard sizes or we can cut to your exact dimensions.
- Deluxe mitred corners simply push together for easy assembly.
- Choose from modern “natural anodized” finish or deluxe “polished silver”
- Designed to accept graphic panels up to 4.5mm thick.

A) STANDARD FRAME SIZES

1. #1730/A4
#1730/A3
#1730/A2
#1730/A1
#1730/A0
2. Specify finish - Natural Anodized (AN) or Polished Silver (POL)
3. Specify - Landscape (L) or Portrait (P)
4. Specify - Top opening (T) or Side opening (S)

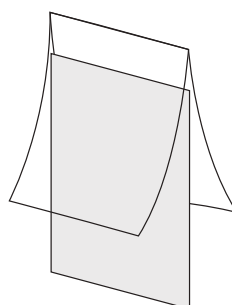

e.g. #1730A3ANPT (A3 sized frame in natural anodized finish, portrait with opening at top).

B) CLEAR PLASTIC SANDWICH LABEL (optional)

Clear, thin, non-reflective PVC sleeve to protect paper graphics.

- #29250/A5
#29240/A4
#29230/A3
#29220/A2
#29210/A1

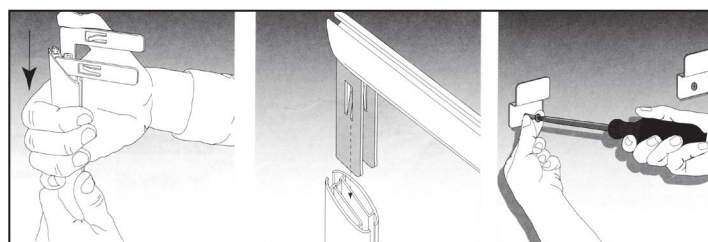

C) METAL CORNER STAKES

(included in standard frames, also available separately)

Galvanised steel. Simple push fit into mitred frame.
8 required per frame.

#1735

N.B Corner stakes are included in standard frame pricing.

WALL CLIPS

#1733
Plankwall clip.
Use 2 clips per frame.

#1732

Use 2 clips to hang frame
4 clips for a more secure
fixing. Sold individually..

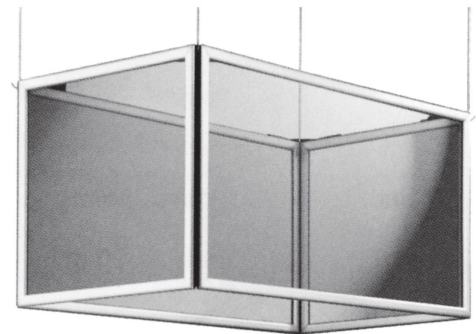

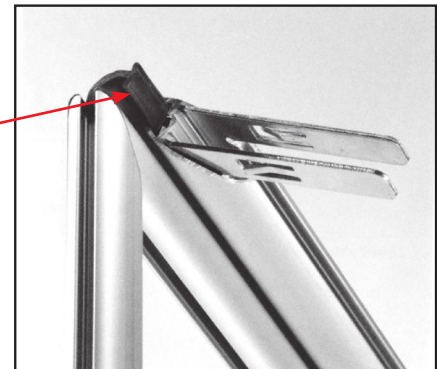

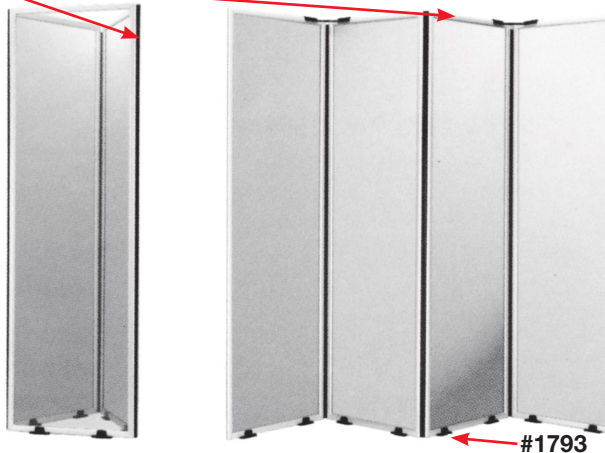

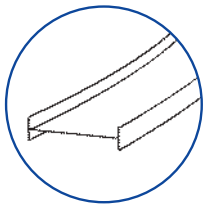

FLEXIBLE PVC SPLINE

Join frames at almost any angle for 3, 4 or more sided units for suspending from ceiling or free standing.

- No tools necessary - assembles in minutes
- Dramatic and affordable
- Free standing or ceiling hung applications

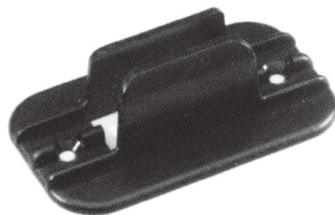

#1738

Sold per metre.

PLASTIC FOOT

Secure fit snaps onto the rounded profile of the Ali-Info Frame. Provision for screwing onto flat surface.

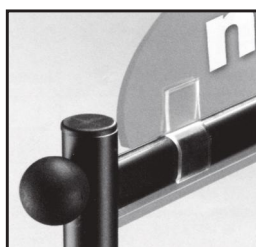

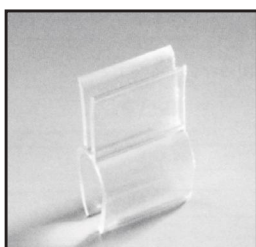

#1793

75 x 45 mm

FRAME TOPPER CLIP

Add additional messages to your stand with Topper clips in clear plastic. Simply snap clips onto top rail of your frame and insert your graphics up to 3mm thick.

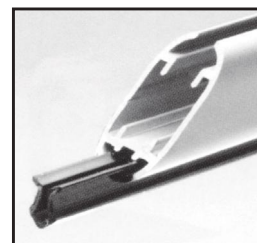

#1689

Clear plastic

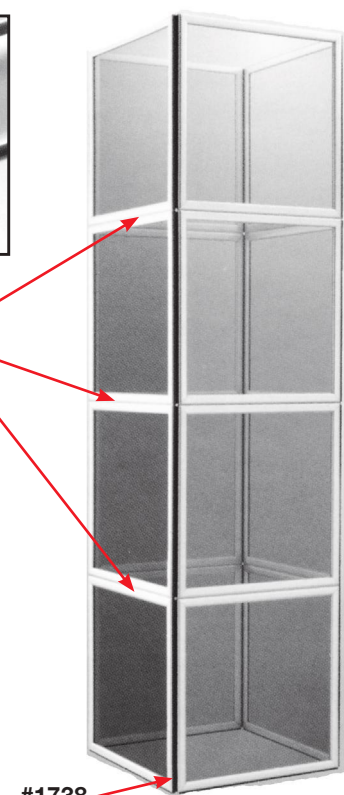

STACKER BAR

Allows for stacking Ali-Info Frames as shown.

#1752

Length 3050mm

#1738

ALI-CLICK FRAMES

- A fully assembled, self-contained, front loading poster frame.
- Spring-loaded sides hinge independently for rapid graphic change.
- Choose from single or double-sided viewing.
- An excellent system for lightbox fronts with opal acrylic backing panel, allowing simple transparency change.
- Standard finishes available:
- Choose from the following mounting options:
 - Secure wall fix with 4 screw
 - Removable wall fix with 2 screws
 - Suction cup mounting for windows, refrigerators etc.

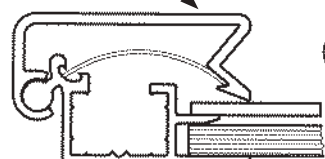

A #1795

Back frame - Mill Finish (M) or Natural Anodised (A).

B #1794

Front frame - Mill Finish (M) or Natural Anodised (A).
May be powdercoated to your requirements

Specify size - eg. #1742/A1

C E-SPRING CLIP

Spring steel clip makes frame snap shut. Use minimum of 2 pieces per frame side.

#1799

D PLASTIC CORNER

Plastic moulded corner tightens onto frame with grub screws. 4 required per frame.

#1797

Available in Grey (GY)
or Black (BL).

E CORNER CAP

Moulded plastic. Push fit into plastic corner.

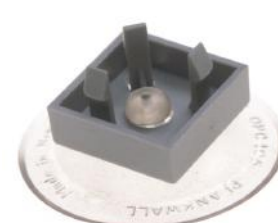

#1798

Available in Bright Chrome
(C) or Satin Chrome (S).

F SUCTION CAP ATTACHMENT

Plastic fitting clips onto the back of plastic corner and retains suction cap.

#1744

Includes plastic clip
& suction cap. Use 4
sets per frame

'ZIVA' FOOTPATH SIGN

- 70% of final purchasing decisions are made at the point of purchase. But first you have to get them into your stores.
- Taken over their lifespan, footpath signs are an extremely cost effective medium.
- Changing your advertising message to suit your current promotion, or product release, stimulates a higher level of interest resulting in increased sales.
- ZIVA Footpath Signs take A1 posters or digital prints which can be quickly and easily changed by one person.
- ZIVA Footpath Signs virtually eliminate the tripping hazard that traditional A-Frame signs present. The water weighted base prevents them being blown away in strong winds and becoming a traffic hazard.

#1705

Dark Blue

White Haze

Red

BOX CLAMP

To attach frames to boxes, fruit baskets, crates, etc... up to 22mm thickness. Set consists of clamp with hinged post and 'T' piece. Standard colour – Black. Order frame separately.

#35550

T – PIECE

For connecting frames to stems.

#20010 60mm – use for A5 & A6 frames.

#20011 – 90mm – use for A4 & A3 frames.

Available in Red(RD), Black(BL), White(WH) or Clear(CL).

ALL-ROUNDER CLAMP

Revolving clamp with 155mm rod for a range of materials from 8 – 34mm thickness. Clamp has rubber inlay to prevent scratching. Order 'T' piece and frame separately. Standard colour – White.

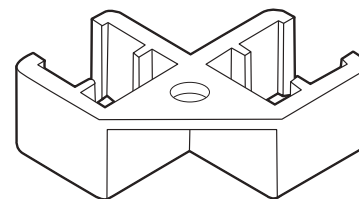

#20560

SQUARE HANGER

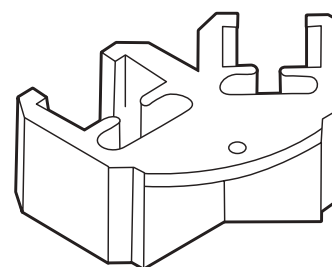

Connects frames at 90 degree angle, with hole for hanging.

#21040 Clear plastic

TRIANGULAR HANGER

Connects frames at 60 degree angle, with hole for hanging.

#22040 Clear plastic

UNIVERSAL CLAMP

Very strong clamp for attaching to round or oval tubing up to 25mm diameter. Clear polycarbonate clamp with rubber inlay to prevent scratching. Order frame and 'T' piece separately.

#20570

SPRING CLAMP

Vertically spring-loaded grey plastic retainers attach to wire grids & baxkets, shopping trolleys and more.

Aluminium stem adjusts in height from 250-500mm. Includes 'T' piece - order frame separately.

#35435

Available in Red (RD) or Black (BL).

OFFSET PLASTIC BASE

Designed to be free-standing or to slide under cartons.
Use with 12mm dia. stems. Size – 250 x 90mm.

#20390

Available in Red(RD), Black(BL), White(WH) or Clear(CL).

OFFSET METAL BASE

Heavier weight base provides greater stability. Use with 12mm dia. stems. Size – 185 x 160mm.

#20320

Available in Black(BL), Grey(GY)

ROUND PLASTIC BASE

For use with 12mm dia. stems. Size – 160mm dia

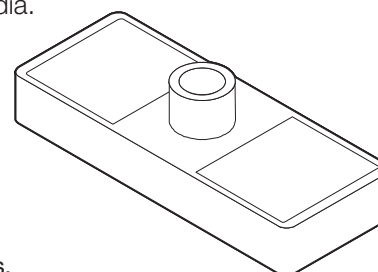

#20340

Available in Red(RD), Black(BL), White(WH) or Clear(CL).

MAGNETIC BASE

White plastic base with either 2 or 4 magnets for use with 12mm dia. stems. Size – 100 x 40mm.

#20370

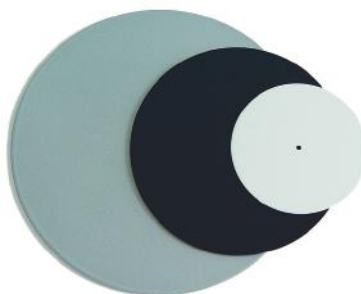

2 magnets.

#20372

4 magnets.

ROUND STEEL BASE

Heavy flat 5mm thick steel plate in White powdercoat finish. (Other colours available to special order).

#20330 160mm dia. – Weight – 0.6kg.

#20331 255mm dia. – Weight – 2.0kg.

#20334 345mm dia. – Weight – 3.8kg.

#20200

STEM HOLDER (for use with 160mm dia. base only)

ROUND MAGNETIC BASE

50mm dia. chrome base with magnetic force up to 18kgs. Includes tube holder to take 12mm dia. stems.

#20375

CHROME STEMS

Fixed length chrome stems 12mm dia. with reduced top to fit T-piece.

#20116	160mm
#20131	310mm
#20141	410mm

ADJUSTABLE CHROME STEM

Adjustable length chrome stem, outer tube – 12mm dia., inner tube – 10mm dia. to fit T-piece.

#20143	200 – 360mm
#20144	320 – 620mm
#20145	450 – 900mm
#20146	600 – 1200mm

ADJUSTABLE PLASTIC TUBE

Made from Black fibre reinforced plastic. Adjusts in height from 320 – 620mm. Outer tube – 12mm dia., inner tube – 10mm dia. To suit T-piece. Use with #20320 offset metal base.

#20162

CLEAR PLASTIC STEMS

For use with 12mm dia. stems. Size – 160mm dia

#20172	50mm
#20173	75mm
#20174	150mm

TALL ADJUSTABLE STEMS

Adjustable height chrome tube with bolt on top to mount T-piece. Includes bottom connector for mounting to round steel bases (AP20331 & AP20334). Extends from 1000 – 1700mm.

#20176

TALL ADJUSTABLE STEM

Adjustable height aluminium tube with bolt on top to mount T-piece or other fittings. Includes bottom connector for mounting to round steel bases (AP20331 & AP20334). Extends from 1300 – 2500mm.

#15376

Available in Black(BL), Grey(GY)

GALLOWS STAND

Offset metal base with 600mm fixed tube with 1 or 2 gallows @ 310mm long each side (Order frame & hanging clips separately)

- #38731 Single-sided gallows
- #38631 Double-sided gallows

GALLOWS STAND

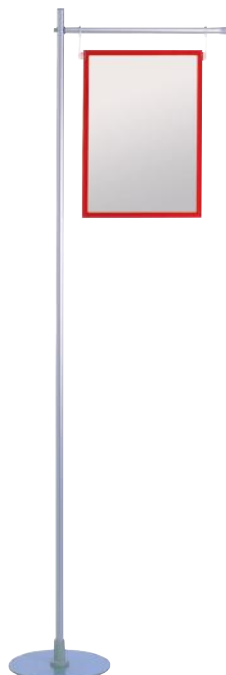

Round steel base 160mm dia. With adjustable height chrome tube 600 – 1200mm with lever clamp. Available with 1 or 2 gallows @ 400mm long each side (Order frame & hanging clips separately)

- #38772 Single-sided gallows
- #38672 Double-sided gallows

GALLOWS STAND

Round steel base 255mm dia. With aluminium tube 1600mm high. Available with 1 or 2 gallows @ 400mm long each side (Order frame & hanging clips separately)

- #38410 Single-sided gallows
- #38420 Double-sided gallows

GALLOWS STAND

Round steel base 255mm dia. With adjustable height chrome tube 1000 – 1900mm. Available with 1 or 2 gallows @ 400mm long each side (Order frame & hanging clips separately)

- #38411 Single-sided gallows
- #38421 Double-sided gallows

'PRIMO' SQUARE TUBING JOINTS

DISPLAY
COMPONENTS

The 'PRIMO' system allows endless design possibilities with 25mm square tube by providing a secure 'friction-fit' connection in a range of configurations.

A large range of standard accessories are available for a multitude of functional and decorative applications, including panel mounting, shelving or mobile stands.

Corners are tapped in place with a rubber mallet. Standard finishes are Bright Chrome(C) or Brushed Chrome(SC).

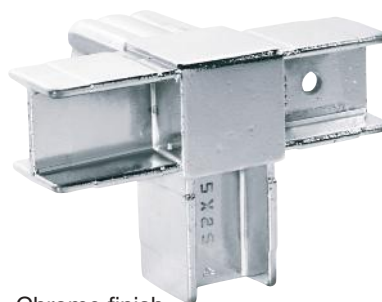

3-WAY CORNER

#2306SC Satin Chrome

4-WAY CROSS JOINT

#2307C Chrome finish
#2307SC Satin Chrome

SQUARE TUBE

25mm square x 1.2mm wall thickness.
Length – 3000mm

#2308C Chrome finish
#2308SC Satin Chrome

ECONOMY SQUARE TUBE

Chrome finish only.

#5050/6 1830mm
#5050/8 2440mm

SQUARE TUBE SLOTTED 2 SIDES

For attaching various brackets.
Chrome finish only.

#2309/5C 1475mm
#2309/8C 2375mm

SQUARE TUBE SLOTTED 4 SIDES

For attaching various brackets.
Chrome finish only.

#2310C 2375mm

WALL SPACERS (PAIR)

With sleeve for wall attachment.
Has holes for shelf bracket pins.
Chrome finish only.

#2314C 335mm

SHELF PINS (SET OF 4)

Fit onto wall spacers at
top of upright tube.

#2315C 110mm high

FIXING PLATE – 'L' SHAPE

With adjustable foot.
Screws onto bottom
frame. Chrome finish.

#2316C 90 x 90mm x 80mm high.

FIXING PLATE – 'T' SHAPE

With adjustable foot.
Chrome finish.

#2317 155 x 90mm x 80mm high.

FIXING PLATE – CROSS SHAPE

With adjustable foot.
Screws onto bottom
frame. Chrome finish.

#2318C 155 X 155mm x 80mm high.

FIXING PLATE – 'L' SHAPE (for castors)

Screws onto bottom frame.
Chrome finish.

#2319 90 x 90mm high.

FIXING PLATE - 'L' SHAPE (for castors)

Screws onto bottom frame.
Chrome finish.

#2320C 155 x 155mm high.

CASTORS

80mm dia.
With M10
thread.

#2345 Plain
#2346 With brake

HANGING BAR

Hooks between slotted uprights.
Chrome finish.

2323/2 600mm
2323/3 900mm

DOUBLE-SIDED FACEOUT

For central hanging bar.
Chrome finish.

#2325 250mm either side.

CENTRAL HANGING BAR

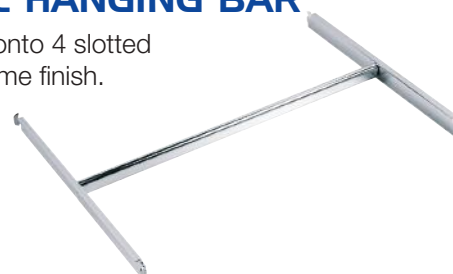

For mounting onto 4 slotted
uprights. Chrome finish.

#2326/3 900mm long x 330mm wide.

CENTRAL HANGING BAR

For mounting onto 4 slotted
uprights. Chrome finish.

#2327/3 900mm long x 430mm wide.

CENTRAL HANGING BAR

For mounting onto
4 slotted uprights.
Chrome finish.

#2328/3 900mm long x 650mm wide.

SHELF BRACKETS (PAIR)

For mounting onto
slotted uprights.
Chrome finish

#2329/13 330mm
#2329/17 430mm
#2329/26 650mm

CENTRAL SHELF BRACKETS (PAIR)

For mounting
onto slotted
uprights.
Chrome
finish..

#2330 300mm

CENTRAL SHELF BRACKETS (PAIR)

Allows for simple
removal of shelf.
Chrome finish.

#2364 180mm.

SHELF SUPPORTS (SET OF 4)

Allows for simple removal of shelf.

#2363

FIXING PLATE - 'L' SHAPE

Screws onto top of frame for additional support.
Chrome finish.

#2355 90 x 90mm

FIXING PLATE - 'T' SHAPE

Screws onto top of frame for additional support.
Chrome finish.

#2356 155 x 90mm

FIXING PLATE - CROSS SHAPE

Screws onto top of frame for additional support. Chrome finish.

#2357 155 X 155mm

FIXING FLANGE

For wall mounting – includes grub screw to fasten tube.

#2371C Chrome finish
#2371SC Satin Chrome

TUBE JOINER

With socket screw expander.

#2372 80mm long.

PANEL SUPPORT

For 6mm thick panel.

#2373C Chrome finish
#2373SC Satin Chrome

SHELF SUPPORT

For shelf thickness up to 12mm.

Single
#2375C Chrome finish
#2375SC Satin Chrome

Double
#2376C Chrome finish
#2376SC Satin Chrome

PANEL HOOK

#2377C Chrome finish
#2377SC Satin Chrome

DOUBLE HOOK

#2378SC Satin Chrome

'JOKER' CLEAR FITTINGS

'JOKER' CLEAR FITTINGS

JOKER clear fittings are injection moulded from clear polycarbonate to provide some interesting display configurations using 25.4mm dia. chrome tube or clear acrylic tubing.

Fittings simply tighten onto the tubing with an allen key.

SIX-WAY CONNECTOR

#1474

THREE-WAY CONNECTOR

#1470

SHELF SUPPORT

Special design feature allows for side-by-side placement on continuous shelving run.

FOUR-WAY CONER CONNECTOR

#1471

PANEL CLAMP

#1476 - For 5mm thickness panel.
#1477 - For 10mm thickness panel.
#1478 - For 20mm thickness panel.

FOUR-WAY STRAIGHT CONNECTOR

#1472

FLANGE

#7549

#846/6 - 1830mm (L)

#846/8 - 2440mm (L)

Clear Acrylic 3mm thickness

#7515 - 1830mm (L)

'JOKER' TUBING SYSTEMS

'JOKER' TUBING SYSTEMS

'JOKER' is the collective name for this amazing system of components for connecting 25mm dia. tubing and fittings in ways that have never before been possible.

Seriously, you can now construct a whole range of framing structures with combinations of shelving and panel infills in a variety of materials.

Ideal for both permanent and temporary exhibits by simply cutting tubing to length and joining connectors.

CHROME TUBING

25mm dia. chrome tubing.

- #846/2 - 700mm (L)
- #846/5 - 1600mm (L)
- #846/6 - 1830mm (L)
- #846/8 - 2440mm (L)

TUBE END CAP

Chrome plated plastic end cap.

SUCTION CUP

For glass shelves.

#2532

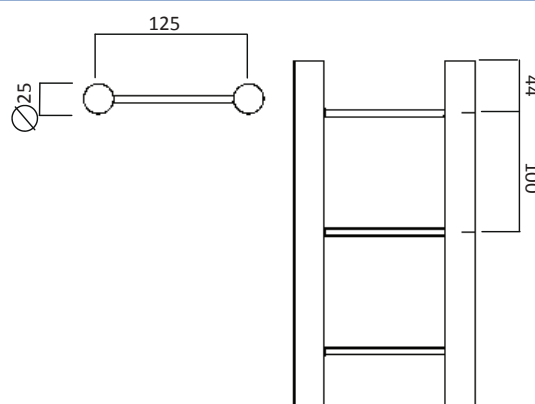

- A complete system of interchangeable components to enable you to create amazing display situations.
- Provides an overhead frame structure to delineate an area and can be used as a functional system for shelving, etc...
- Based on 25mm diameter steel tube in 2 (Simple), 3 (Tri-) or 4(Quad-) tube columns.
- The components are available in Bright Chrome finished steel tubing. Special colours and alternative finishes are available on request.

SIMPLE COLUMN

Double tube uprights with cross bars at 100mm centres. Chrome finish.

	Overall length
#2501/50C	788mm
#2501/80C	1088mm
#2501/110C	2188mm
#2501/240C	2388mm
#2501/300C	2988mm

SIMPLE VERTICAL BEND

#2504C Overall dimension – 300 x 300mm

SIMPLE HORIZONTAL BEND

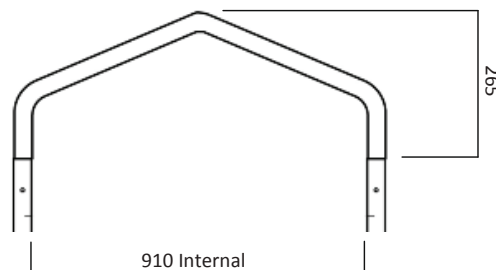

#2505C Overall dimension – 300 x 300mm

SIMPLE DECORATIVE ENTRANCE GABLE

#2509C

Overall dimension
910mm wide x 265mm high.

SIMPLE VERTICAL CORNER - MITRED

#2547C

Overall dimension – 300 x 300mm

SIMPLE HORIZONTAL CORNER - MITRED

#2548C

Overall dimension – 300 x 300mm

SIMPLE WALL/ FLOOR PLATE

With tightening screws.

#2514C

SIMPLE BASE SUPPORT

#2526C

Overall length – 400mm

#2527C

700mm

SIMPLE COLUMN BASE

380 mm diameter steel base including fixings for column. Standard finish – Powdercoat 'Hammered Black'

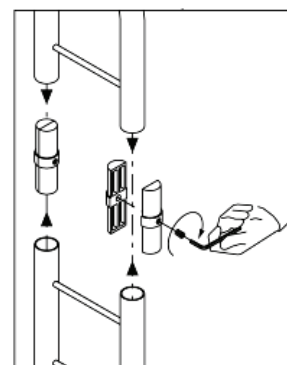

#2531

TUBING SPIGGOT

Socket screw tightening for joining of round tubes. Required for all connectors/bases to columns. Chrome finish.

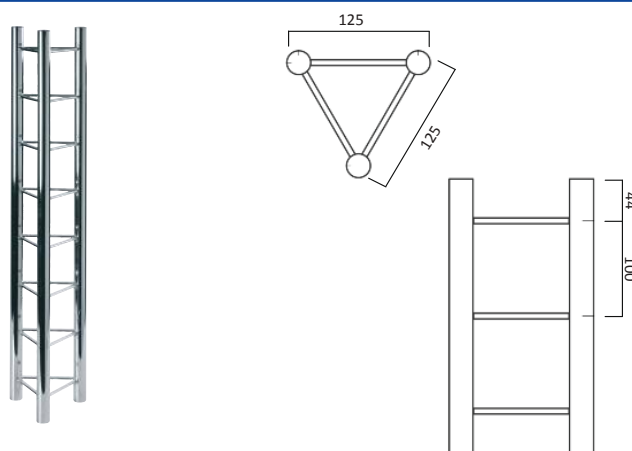

#2259

TRI - COLUMN

Triple tube uprights with cross bars at 100mm centres. Chrome finish.

	Overall length
#2502/50C	788mm
#2502/80C	1088mm
#2502/110C	2188mm
#2502/240C	2388mm
#2502/300C	2988mm

TRI - 90 DEGREE BEND

With slanted end.

#2506C
Overall dimension
300 x 300mm

TRI - 90 DEGREE BEND

With straight external end.

#2507C
Overall dimension
300 x 300mm.

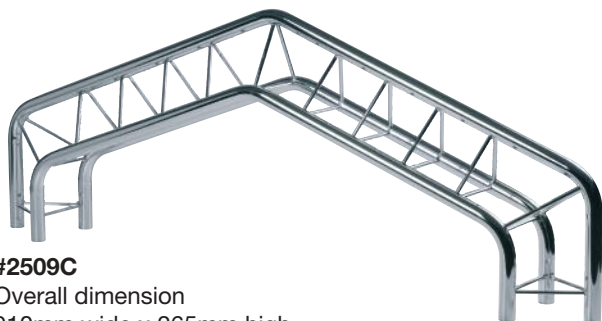

TRI - 90 DEGREE BEND

With inner tube.

#2543C
Overall size
300 x 300mm.

TRI - DECORATIVE ENTRANCE GABLE

#2509C

Overall dimension
910mm wide x 265mm high.

TRI - CROSS CONNECTOR

#2544C

Overall size
300 x 300mm.

TRI - 'T' CONNECTOR

With straight external end.

#2545C

Overall size
300 x 225mm.

TRI - 90 DEGREE BEND - MITRED

#2449C

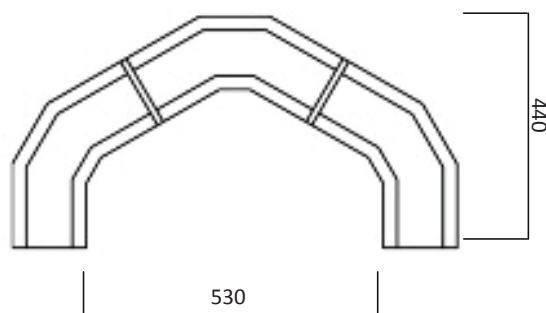

Overall size
300 x 300mm.

TRI - 120 DEGREE BEND

With external tube.

#2551C

Overall size
340 x 270mm.

TRI - COLUMN BASE

380 mm diameter steel base
including fixings for column.
Standard finish – Powdercoat
'Hammered Black'

#2532

TRI - PYRAMID COLUMN TOP

Chrome finish.

#2546C

Overall size
200mm wide x 190mm high.

TRI - WALL/ FLOOR PLATE

With tightening screws.

#2516C

SOCKET SCREW SPIGGOT

For 'Cubic' joint (below).
Expands to fit tubing.

#2512

'CUBIC' JOINT

Used as a junction for either
'Simple', 'Tri' or 'Quad'
columns. Purchase the
required amount of spigots
(above). Chrome finish.

#2511C

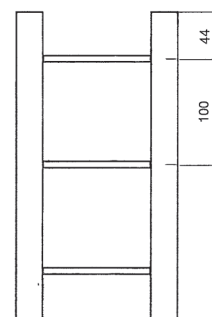

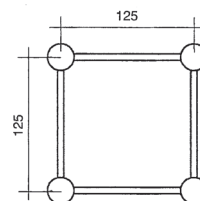

Overall size
165mm cube

'QUAD' COLUMN

4 x tube uprights with cross bars at 100mm centres. Chrome finish.

	Overall length
#2503/50C	788mm
#2503/80C	1088mm
#2503/110C	2188mm
#2503/240C	2388mm
#2503/300C	2988mm

QUAD - 90 DEGREE BEND

#2508C
Overall dimension
300 x 300mm.

QUAD - 90 DEGREE BEND - MITRED

#2550C
Overall dimension
300 x 300mm

QUAD - 120 DEGREE BEND

#2552C
Overall dimension
335 x 280mm

QUAD CROSS CONNECTOR

#2553C

Overall size
300 x 300mm

QUAD 'T' CONNECTOR

#2554C

Overall size
300 x 225mm

QUAD COLUMN BASE

380mm diameter steel base, including fixings for column. Powdercoat finish – 'Hammered Black'.

#2533

QUAD WALL/FLOOR PLATE

With tightening screws.
Chrome finish.

#2517C

STRAIGHT SHELF BRACKETS (PAIR)

Centred hooks. Chrome finish.

#2522C Length – 300mm

STRAIGHT SHELF BRACKETS (PAIR)

Off-centred hooks.
Chrome finish.

#2523C Length – 300mm

SLOPING SHELF BRACKETS (PAIR)

Centred hooks. Chrome finish.

#2555C Length – 300mm

SLOPING SHELF BRACKETS (PAIR)

Off-centred hooks.
Chrome finish.

#2556C Length – 300mm

HANGRAIL

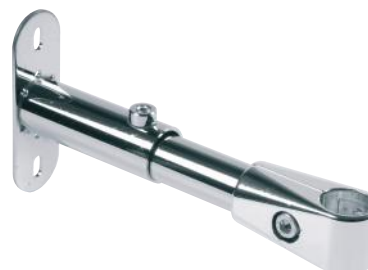

2 x hook-on brackets with oval tube. Chrome finish.

#2519C Overall length – 915mm

WALL BRACKET

Use where additional support for
the structure is required.

#2518C Length – 235mm (may be trimmed to suit)
